

BLITZ

AQUEN KETTLE

1.7 LITRE - 2200W - REMOVABLE FILTER - SECURE LID LOCK SYSTEM - AUTO SWITCH-OFF BUTTON

The SQ Professional Aquen Kettle, from the Blitz Range, is an essential item for any kitchen. With a 1.7 litre fill capacity and a powerful 2200-watt heating element you'll be able to make the perfect cuppa, any time.

Auto Switch-Off Button

The auto switch-off button is one of the great features on the Blitz Aquen Kettle as it prevents over boiling and means you can leave the kettle in operation to boil the water, whenever you need, unmanned and unassisted.

Secure Lid Lock System

With the secure lid lock system in place, you can rest assured knowing your water is boiling securely and safely in the Blitz Aquen Kettle.

Removable Limescale Filter

Another key feature of the Blitz Aquen Kettle is its limescale filter – which ensures the water you receive from the kettle is always clean and free from impurities. Plus, the limescale filter is easily removable from the kettle's large spout – making it simple and quick to clean, when required.

Stainless Steel Heating Element

Included in the Blitz Aquen Kettle's design is a quality stainless steel heating element, capable of supplying 2200-watts of power. With these two key elements, you can make the ideal hot beverage, in no time.

As well as including the great features mentioned, the stylish Aquen Kettle is also available in three colour options, and perfectly matches with their respective counter parts - the Two Slice Toasters - from the Blitz Range. Get both of these essential kitchen items, in your favourite colour, today!
