You can reach us via email at [info@ozarke.com](mailto:info@ozarke.com) or via phone at +1-(800) 604-7271

## BEFORE YOU GET STARTED

When working with electrical wiring, follow these safety instructions to prevent injury or damage:

1. Turn off the power: Before starting any work, turn off the power to the area you will be working in.
2. Use appropriate tools: Only use tools designed for electrical work and in good condition.
3. Wear protective gear: Wear safety glasses, gloves, and other protective gear as necessary.
4. Test for power: Use a non-contact voltage tester to check for electrical current before touching any wires.
5. Avoid wet conditions: Do not work with electrical wiring in wet or damp conditions.
6. Keep a safe distance: Stay away from exposed wires or electrical components.
7. Seek professional help: Consult a qualified electrician if you are unsure about any aspect of electrical wiring or encounter any problems.

## WARNING!

1. Do not use the power supply beyond the specified range (100–277V).
2. Avoid scratching the surface and wires of the light during installation.
3. Do not install the light outdoors.
4. The light should not be close to corrosive chemical objects or gases.
5. It should not be washed with water. It can only be wiped with a clean soft cloth.

## Lora Modern Chandelier

Thank you for choosing Ozarke. The Lora Modern Chandelier blends high-quality craftsmanship with minimal design, and these simple steps will ensure safe and successful installation.

### Safety First: Read Before Installing

- This light fitting operates on 100–277V.
- Always turn off the power at the main circuit breaker before installing.
- Important: To prevent hazards, if the external cord is damaged, it must be replaced only by the manufacturer, a certified service agent, or a qualified electrician.
- We strongly recommend using a licensed electrician for installation.
- For indoor use only unless otherwise specified.
- Do not exceed the maximum wattage rating of the fixture.

### Tools Required (Not Included):

- Step ladder
- Phillips & flat-head screwdrivers
- Wire stripper/cutter
- Electrical tape
- Pliers

### What's Included:

- Light Fixture
- Mounting Bracket
- Screws & Anchors
- Wire Connectors
- Instruction Manual

### Wiring Diagram Overview:

- L (Live): Black wire
- N (Neutral): White wire
- GND (Ground): Green or bare copper wire
- (Ensure all connections match your local wiring codes.)

## Installation Steps:

1. Turn off the power at the breaker panel.
2. Carefully unpack your fixture and lay out all components.
3. Attach the mounting bracket to the junction box using the provided screws.
4. Connect the fixture wires to your household wires:
  - Black (Live) → Black
  - White (Neutral) → White
  - Green/Bare (Ground) → Green/Bare
5. Secure all connections with wire nuts and wrap with electrical tape for extra safety.
6. Attach the fixture to the mounting bracket and tighten all screws.
7. Install bulbs (if applicable), ensuring they do not exceed the rated wattage.
8. Restore power at the breaker and test your new light.

## Aftercare & Maintenance:

- Clean with a soft, dry cloth and no harsh chemicals.
- Inspect occasionally to ensure all screws remain tight.
