Gazebo Installation Guide

Version:20231109

Save this manual for future reference

INTRODUCTION

Thank you for purchasing Aoodor's Patio gazebo!We hope you will find joy in our product for many years to come.

To ensure your personal safety during installation and to get the most out of your investment,please read this entire manual before beginning the installation process.If you feel that this process is too difficult to do on your own, we advise that you seek assistance from a local building or home improcement contractor.

WARNING Improper installation and operationof your gazebo can resuly in severe personal injury as well as product failure not covered by warranty.Please follow all instructions carefully or contact technical support for assistaince.

We believe that installation can be a simple,streamlined process if you follow the instructions in this manual. Please contact our customer support line for help any step of the way. If you need assistance with assembly,have missing or defective parts, or any other issues, please email us at customerservi@aoodor.com

SAFETY INFORMATION

Please read and understand this entire manual before attempting.
Four to five perple are need for assembly.
Maximum load for the roof hook:100lbs.
Estimated assembly time:4-5hours.

PRERARTION

Before beginning assembly of product,make sure all parts are present.Compare parts with package contents list and hardware contents list.If any part is missing or damaged,do not attempt to assemble the product.

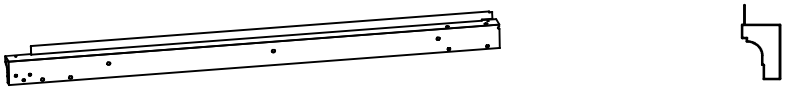

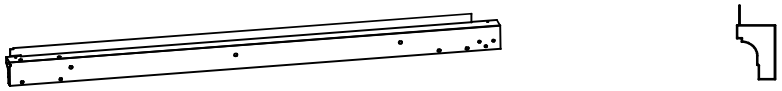

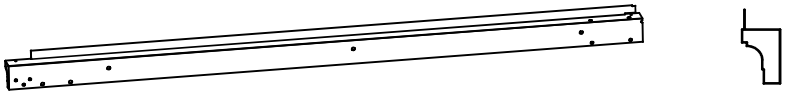

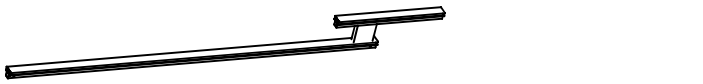

Product is NOT INTENDED for the following:

- A safety barrier to prevent unsupervised access to pools,hot tubs,spas or ponds.
- As load bearing support for a building,structure,heavy objects or swings.
- Used in structures that trap wind,rain or snow that would create extra load on the product.

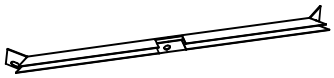

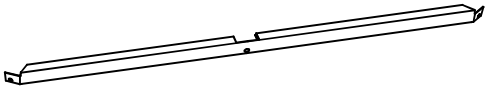

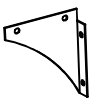

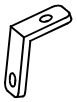

Accumulated snow must be removed from roof.
DO NOT climb or walk on roof for any reason.
Permanet structures may require a building permit.As the purchaser and or installer of this product you are advised to consult local planning,zoning and building inspection departments for guidance on applicable building codes and/or zoning requirements.
Wear gloves to avoid injury from possible sharp edges of individual elements before assembly.
During installation,follow all safety warnings provided with your tools and use Safety glasses. Some structures may require two or more people to install safeiy.

Check for underground utilites before digging or driving stakes into the ground!
It is important during assembly to closely follow the instructions,complete the assembly on a solid level surface and that you follow the instruction to square up,level and anchor the structure,this will reduce the gap at wood connections during assembly.
