

Gazebo GZH3-1212BK

Aluminium Composite Roof Panels

Assembly Instructions

@paragonoutdoorcompany

Paragon Group USA

Customer Service: (877) 782 4482 Email: cs-outdoors@paragongroupusa.com

Introduction

Thank you for purchasing the Gazebo GZH3-1212BKA.

When properly assembled and maintained, this gazebo will provide many years of enjoyment!

These instructions include helpful hints and important information needed to safely assemble and properly maintain the gazebo. Please read these instructions completely before you begin.

Our patented gazebo has been designed for easy assembly. All steps can be completed by a team of four people.

Before Starting Assembly:

CAREFULLY READ ALL THE INSTRUCTIONS BEFORE YOU BEGIN AND FOLLOW THE STEPS IN THE ORDER THEY ARE PRESENTED.

1. Make sure you have all the necessary parts:

Compare the contents of all cartons to the List of Parts. If any parts are missing or damaged, or you have any questions, please contact Customer service: (877)782 4482 before beginning assembly.

2. Lay the parts out in separate staging areas:

The List of Parts has the corresponding step number referenced to each part. We recommend that while you go through the list, make staging areas for each step and place the parts necessary for each step in these areas. This will save you time and effort during assembly.

3. Select a Location:

When selecting a location for your gazebo, a flat level area is essential and if possible with proper water drainage and easy access to power and water, if necessary.

Choose a sunny, level position away from overhanging trees and power lines and protected from the wind as much as possible. Locate underground pipes or cables before preparing the site or anchoring the gazebo.

Note: You may assemble the gazebo on a hard level surface and move it to its final location when finished. Make sure that there are no obstacles between the assembly area and the final position.

4. Prepare a Foundation:

After choosing a location, proper preparation of the site is recommended. The site must be level.

If the site is not level, create a base slightly larger than the outside dimensions of the gazebo using a perimeter of two by fours filled with either soil, sod or gravel.

Make sure the base is square by measuring the diagonals from both directions and making sure they are equal. The gazebo is secured with pegs into holes cast with concrete.

If you decide to have a concrete base, it is best to contact a reliable contractor to make sure it is flat and level. Make sure you have checked with your local authorities regarding any required building permits.

5. Make sure you have the proper tools:

- Tape Measure
- Work Gloves
- Safety goggles
- Phillips Screwdriver
- Spirit Level
- 3/8" masonry drill bit to drill holes for the concrete anchors supplied.
- 2 Small Step Ladders
- Wooden Mallet
- Scissors and knife
- Liquid soap or WD40 Lubricant
- Hex Key

NOTE: A cordless drill with Phillips head bit is highly recommended but not essential.

Safety Advice

- The gazebo must be positioned and fixed on a flat level surface.
- Dispose of all plastic bags safely. Keep them out of the reach of children.
- Keep children and pets away from the assembly area until the work is completed.
- Always wear shoes, gloves and safety goggles when working.
- Take special care not to touch overhead power lines with the aluminium profiles.
- Do not attempt to assemble the gazebo in windy or wet conditions.
- Do not position your gazebo in an area exposed to excessive wind.
- If using power tools or a ladder, always follow the manufacturers safety instructions.
- Hot items such as recently used grills, blowtorches etc. must not be stored in the gazebo.
- Make sure the gazebo complies with local building codes.

ATTENTION: DO NOT ATTEMPT TO ASSEMBLE THE GAZEBO ALONE!

List of Parts

The gazebo is shipped in four cartons. These cartons are heavy. Be careful when lifting them. Wear proper safety gear including work shoes, gloves and goggles. The parts are identified by removable stickers. Place all the parts for each step in staging areas, checking that you have all parts as you go. If any parts are missing or damaged, contact customer service before beginning assembly:

We included some extra screws and bolts for your convenience.

STEP 1 Assembling the Corner Profiles

Place all the parts on a level surface.
Make sure the pieces are in the correct positions before assembling.
Carefully follow the order of assembly to ensure an easy installation.
Wear proper safety gear including work shoes, gloves and goggles.

Components

Corner profile (1)
x 4

Support frame (2)
x 4

Support plate (3)
x 4

Corner roof connector (4)
x 4

Screw (30)
x 24

ATTENTION: The corner profile (1) has two screw holes to connect it to the corner roof connector (4) and 8 pre-drilled screw holes to attach rails (5,6) in step 3 at its top end. It has two screw holes to connect it to the support plate (3) at its bottom end.

1

Top end

1

Bottom end

1.A

Place corner profiles (1) parallel to each other on the ground.
Attach one Corner roof connector (4) to each top end as shown and fasten with screws (30).

x 4

ATTENTION: Do not need to assemble support frame (2) if you purchased the screen netting.

1.B

Slide support frames (2) over lower end of corner profiles (1). Attach support plates (3) to corner profiles (1) as shown, using two screws (30) for each plate, make sure all screws are perpendicularly into the profile holes.

Leave support frames (2) about 10" over lower end of corner profiles (1) until step 4. (Secure the gazebo to ground)

x 4

STEP 2 Assembling the Rails

Components

Rail (5)
x 4

Inner Roof Connector (9)
x 12

Screw (28)
x 32

Rail connector (51)
x 4

Rail (6)
x 4

Outer Roof Connector (10)
x 12

Screw (29)
x 48

2.A

Insert rail connector (51) into blunt end of the rail (5) secured with screws (28).
Insert long rail (5,51) into blunt end of the rail (6) secured with screws (28) as shown.
Repeat to create four sets (5+6).

2.B

Attach three outer roof connectors (10) and three inner roof connectors (9) to each rail set (5,6) at pre-drilled screw holes, using screws (29).

ATTENTION: Attach roof connectors facing exactly in the directions shown.

x 4

STEP 3 Attaching the Rails to the Corner Profiles

3.A

Attach one roof profile set (5+6) to two corner profiles (1) as shown, using screws (29) and supplied magnetic hex key (41) through holes in profile set.

Components

Screw (29)
x 32

Plastic Cap #3 (36)
x 32

Magnetic Hex Key (41)
x 1

3.B

Close holes in profile set with plastic caps #3 (36).

Repeat step 3.A and 3.B to create two sets.

x 2

3.C

Using at least 3 people, attach the remaining two roof profile sets (5+6) to corner profiles (1), connecting all four corner profiles (1).

Fasten with four screws (29) and supplied magnetic hex key (41) on each side.

Close holes in profile sets with plastic caps #3 (36).

IMPORTANT: After this step you should place the gazebo frame in its desired location. Make sure all corners are squared at 90 degrees.

STEP 4 Secure the Gazebo to a Concrete Floor or Wood Deck

4.A

Concrete Floor:

1. Drill holes approx. 3.00 inches deep and use a mallet to set up.
2. 3/8" masonry drill bit to drill holes for the concrete anchors supplied.
3. Using a concrete drill, drill holes into the concrete floor, corresponding to the holes in support plates (3).
4. Insert concrete bolts (40) into the holes and hammer into place, using a mallet.
5. Fasten concrete bolts with washers and nuts.

Components

Wood Deck:

1. Using an electric wood drill, drill holes into the wood floor, corresponding to the holes in support plates (3).
2. Insert wood screws with washers (not supplied) into the holes and fasten, using an electric screw driver.

Wood Bolts, washers x 16
NOT SUPPLIED
to be purchased by user

NOTE: After securing the gazebo to the ground, we highly recommend filling the corner profiles (1) with 2 bags (20LBs each) of Pea Gravel each for extra stability, as shown.

STEP 5 Installing the Lower Roof Gable Profiles

ATTENTION:

DO NOT ATTEMPT TO ASSEMBLE THIS ALONE !

Components

Roof gable profile(11) 2507mm x 4	Roof profile(12) 1657mm x 4	Roof gable profile(13) 1269mm x 4	Roof gable profile(14) 1269mm x 4	Roof Top Connector(18) x 1	Roof Top Connector(19) x 1		
U-shaped Connector(23) x 2	Corner cap(27) x 4	Screw(29) x 56	Screw(30) x 8	Screw(31) x 8	Screw(32) x 8	Nut M6(35) x 8	Plastic Cap #2(38) x 4
Hook(42) x 1	Y - connector(43) x 4	Screw(45) x 1	Roof gable profile(52) 490mm x 4	Roof gable profile(52A) 490mm x 4	Roof top cover(54) x 1	Aluminium Composite Roof Panel(63) x 4	

Using at least three people, install the roof gables (11,12,13,14) in the following order:

VIEW FROM BELOW
(from inside gazebo)

ATTENTION: Roof Profiles, roof panels and gables must be aligned properly during assembly to minimize any possibility of leaking.

IMPORTANT: Make sure that roof gable profiles (11,12,13,14) are installed exactly as shown so that the pre-drilled screw holes will align properly with screw holes on the roof panels.

BOTTOM VIEW OF PROFILES

	Upper end		Lower end
Roof Gable Profile (11)			
Roof Profile (12)		1657mm	2507mm
Roof Gable Profile (13)		1269mm	
Roof Gable Profile (14)		1269mm	

5.A

Using screws (31) and nuts (35), connect roof gable profiles (11) to corner roof connectors (4) on top of corner profiles (1).

Using screws (29), connect roof gable profiles (11) to roof top connectors (18) exactly as shown.

ILLUSTRATION

5.B

Using screws (29), connect roof gable profile (52) to roof top connector (19) as shown. Connect roof top connector (19) to U-shaped connector (23) from above, using screws (29).

5.C

Fit roof panels (63,63) on top of roof gable profiles (52,52).
Place roof profile (52A) on the top of roof gable profile (52) and fasten with two screws (32) from below (inside gazebo).

IMPORTANT: Gently cut on the edge of the panels on both side with knife and remove protective plastic of roof panels. Place with black surface toward the sun facing out when installing.

5.D

Repeat Step 5.C to install another two roof panels (63).
Connect roof top cover (54) to roof top connector (19), using screw (45).

Close off roof gable profiles (52) with plastic cap #2 (38).

5.E

Using screws (29), connect U-shaped connector (23) underneath of roof top connector (18) as shown.

Using screws (29), connect roof profile (12) to roof top connector (18) from below; the other end to inner roof connector (9) by screw (29) as shown.

VIEW FROM BELOW

5.F

Attach Y-connector (43) underneath of roof gable profiles (11), using screw (29) as shown. Connect roof gable profile (13,14) to Y-connector (43) and other end to inner roof connector (9), using screws (29).

VIEWS FROM BELOW

5.G

Attach hook(42) on the roof top connector (18).
Place corner cap(27) on the top of corner profiles(1)
and fasten with screws(30).

Plastic Cap #2 (38)
x 4

ENJOY YOUR COMPLETED GAZEBO!

Gazebo GZH3-1212BK

Aluminium Composite Roof Panels

Assembly Instructions

WARRANTY:

Warranty covers damage due to manufacturing defects only for a period of 5 years on the structure, and 5 years on the Aluminum Shell from date of purchase. Warranty does not cover weather inflicted damage and/or damages caused by not following assembly instructions and adhering to warnings in manual. Warranty does not cover user error, negligence, or misuse.

ATTENTION: Roof profiles, roof panels and gables must be aligned properly during assembly to minimize any possibility of leaking.
