Screws

Screws

Safety glasses

Pencil

Do not use standard
nails and hammer

Do not step
on the door

Do not lay down
on edges

Do not lean
on the wall

WARNING!

Please do not throw away the packing
cardboard until the end of the installation

Invisible Door Frame

Options with European handle may include components below:

Connectors

Door handle

Concealed hinges

Door lock

Hinge caps

Options with bore for American standard handle may include components below:

Connectors

Concealed hinges

Hinge caps

Door slab is already pre-drilled for hinges and handle.

The length of the screw for installation must be selected depending on the type of wall.

Amount of screws depends on the height of the frame: 80" frame will need 24 self-tapping screws for full frame.

Locations of the invisible jamb parts

STEP 1.

Door opening should be at least 1 3/4" wider than the door slab.

We recommend the door opening to be 1 13/16" wider than the door slab.

Door opening height can be 2" higher than the door slab.

We recommend door opening 1" higher than the door slab.

Check swing directions according to the chart below

This installation instruction is for outswing invisible jambs only and helps with installation of any swing directions you find on the 4 pictures below. Apart from choosing the swing direction, the rest of the instruction is the same for both types of frame.

STEP 2.

Finding top and bottom sides of the invisible door jambs

(pic. 2)

(pic. 3)

STEP 3.

Locate door jambs A, B, E on the floor mentioning top and bottom position on the A and B jambs as shown on the (pic. 4)

Connect A, B, E parts of the jamb with plastic connectors.

Insert plastic connector all the way with no gaps like shown on the (pic 7.)

(pic. 5)

(pic. 6)

(pic. 7)

(pic. 8)

STEP 4.

Attach connected A, B, E jamb pieces to the door opening keeping in mind your chosen swing direction.

(pic. 9)

(pic. 10)

(pic. 11)

STEP 5.

Attach B (hinge jamb), using screws and shims, to the opening stud from the doorway side first.

Tightening the screws may shift connection between the long side of the jamb and the header. Please monitor and maintain a tight connection between the header and the long jambs.

American handle

(pic. 13)

European handle preparation

(pic. 14)

STEP 6.

Find top and bottom of the door slab.

The distance from bottom of the door slab to the center of the backset (American handle is $39 \frac{11}{16}$ ").

The distance from the bottom of the door slab to the center of the (European handle preparation is $41 \frac{1}{2}$ ").

(pic. 15)

STEP 7.

Please, pre-drill future screw locations on the door slab with a smaller than screw diameter drill bit before you secure screws. Don't apply hinge caps at this stage.

STEP 8.

Two people are required to hang the door slab on the door jamb.

(pic. 16)

STEP 9.

Secure door hinges to the door jamb with the help of the screws attached to the door jamb. All door jambs come with special screws attached to the preparations of the hinges.

(pic. 17)

STEP 10.

Close the door and align A, B, E jamb pieces around the door slab.
Keep nice looking gaps between door slab and jambs. Standard gaps shown in the picture.

(pic. 18)

STEP 11.

Secure 3-6 screws on the B (hinge side) of the jamb. Check the level of the door and make sure it is not opening or closing by itself. Take screws out and adjust if needed.

(pic. 19)

(pic. 20)

STEP 12.

Secure and tighten all the screws. Always check connections on the edges of the A, B, E jamb pieces.

STEP 13.

Secure maximum screws all around the door jamb. Please, keep nice gaps between door slab and door jambs.

(pic. 22)

STEP 14.

Install D, C, F jamb pieces inserting them in the A, B, E door jamb parts.

(pic. 23)

(pic. 24)

(pic. 25)

(pic. 26)

STEP 15.

Detailed view of the additional elements connected with the main parts of the invisible door jambs.

STEP 16.

Tightly secure the screws all around the door jamb. Please, keep nice gaps between door slab and door jambs.

Adjust door hinges if needed.

Apply hinge caps and proceed with putting and painting.
