Swimming pool

Follow the below instructions to mark the required holes at the edge of the swimming pool:
1. The recommended installation distance between the fence and the pool is 1.4m;
2. Confirm the starting installation point 1 and use Part ② (template) to mark positions of 2/3/4/5 as shown in the picture.

Drill holes on the markings made in step 1 using an electric drill with a 17-17.5mm drill bit. The drilling should be 4 inches deep and perpendicular to the ground (Fig. 1). (Users should prepare their own electric drill and drill bit.)

Note: Make sure that all markings are correctly placed before drilling.

After drilling, clear out debris from the holes, then insert Part ③ (plastic sleeve) in the hole (Fig. 2). NOTE: To fully insert and prevent damage, place a wooden block on top as shown in Fig. 3 and gently tap the sleeve down into the hole until it is flush with the ground.

3

Push down the poles of Part ① (mesh fabric with poles) into 5 matching sleeves until the fence's bottom is flush with the sleeve.

Installation Completed
