

Ceramic PLANTERS

Benefits of Ceramic Construction

Traditional ceramic pottery is lauded as the elite among other garden planter substrates in supreme quality and artistry. These kiln-fired pots are reminiscent of pottery-making that has existed for thousands of years. A heavy construction makes ceramic an ageless addition to your garden.

Timeless

Kiln-fired at over 1500 degrees create unique, long-lasting glaze finishes.

Unique

Each ceramic planter pot is hand-finished for an authentic look.

Indoor Gardening

Ceramic pots are ideal for indoor container gardening with attached saucers and rubber feet to keep from scratching table tops.
