Verify that all cartons have been received and review the assembly requirements before proceeding. Ensure you have allocated sufficient time and, if necessary, arranged for an assistant

Please read and retain these instructions for future reference. Verify the contents against the parts inventory; do not begin assembly if any pieces are missing

Carefully identify all components to differentiate which pieces are left & right.

DO NOT over-tighten screws or use a drill. This will damage the product.

Before discarding the packaging, please ensure that you have all the part required to assemble your product. Please kindly note you will need original package if you want to return the product later.
