WARNING ⚠ Children have died from furniture toppling over. To prevent serious injury or death, always anchor this locker to the wall. All Mustard lockers have holes on the back for wall fixings, ensure you use the correct fixings for your wall (these are not provided). Never allow children to stand on the locker or climb on the doors or shelves. Place heavy items lower down.

How to build The Kit

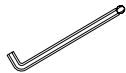

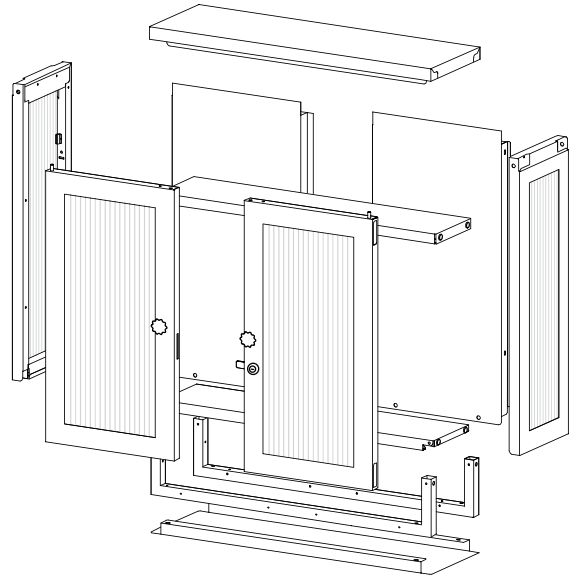

Your glass locker is ready to shine! We're here to take you through the build step by step. You'll be admiring your beautiful new Kit very soon, so get ready, let's do this.

Watch our helpful how-to videos where we take you through the build step by step.

Learn more about securely attaching the product to the wall using the correct fittings (not provided).

1 x hex key

18 x hex screws

2 x bolt screws

2 x handle screws

4 x shelf brackets

1 x door bolt

2 x handles

1 x set of keys

1 x keyring

2 x posts

2 x large washers

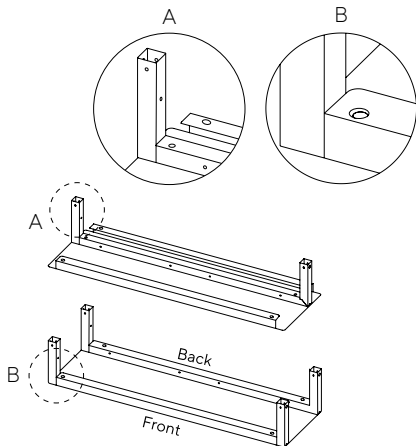

2 x small washers

1

Slot one U bar under the back edge of the bottom panel.

Slot the other U bar under the front edge.

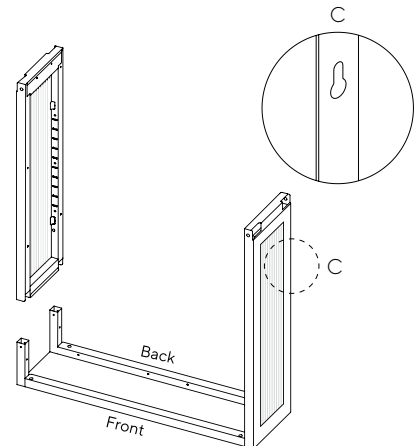

Make sure the holes align at the front.

2

Slide the side panels down onto the U bar.

Make sure the keyhole slots are at the back.

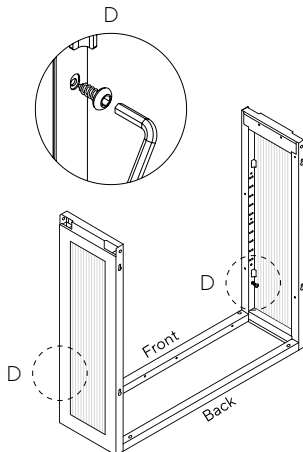

3

Grab your hex key.

Screw through the holes inside the side panels.

2 x

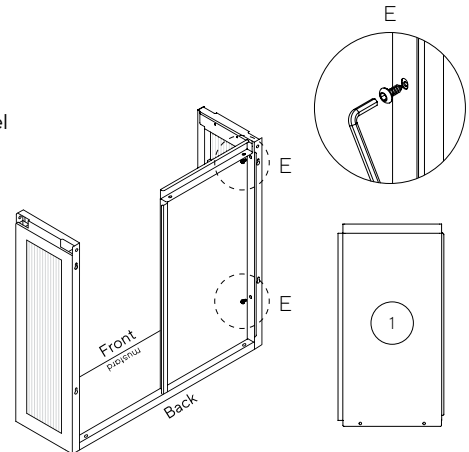

The screws are self tapping. Push firmly. It's ok if the screws are tight, or angled at first.

4

Put back panel 1 in place first + screw it in at the back.

2 x

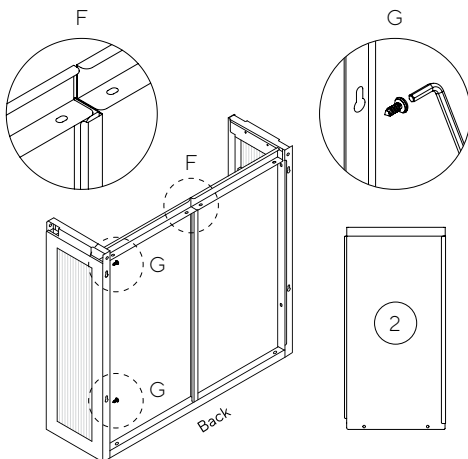

5

Put back panel 2 in place, this will hook inside panel 1.

Screw it in at the back.

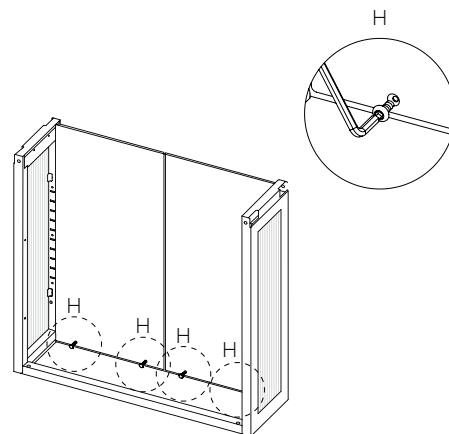

2 x 

6

Screw the back panels in from the inside.

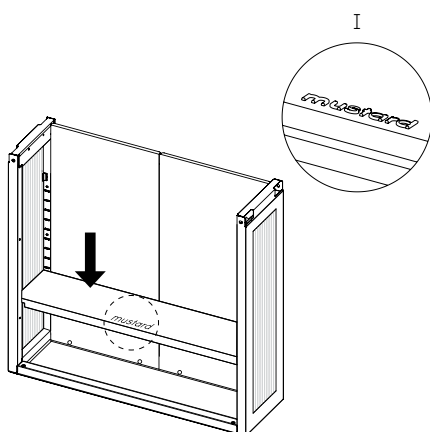

4 x 

7

Add the base, starting at the back.

The 'Mustard' logo goes at the front.

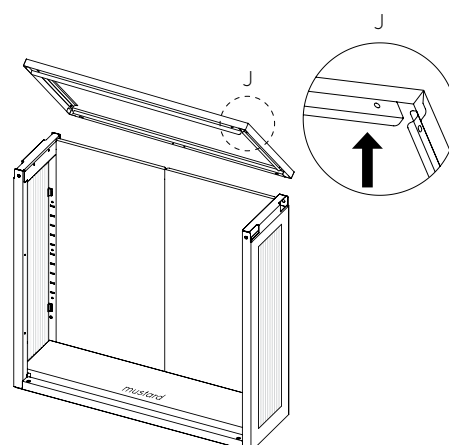

8

Place the top panel on, starting at the back.

The lip goes at the front.

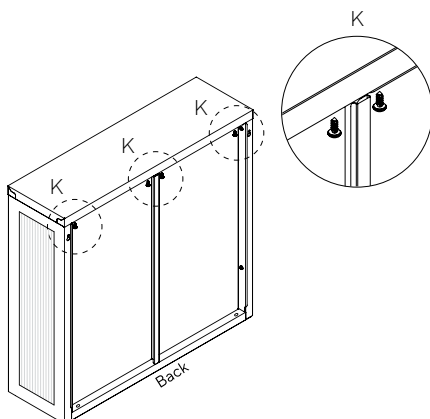

Check that the sides + back panels are slotted in correctly. Push the top panel in place.

9

Screw the back panels to the top from the back.

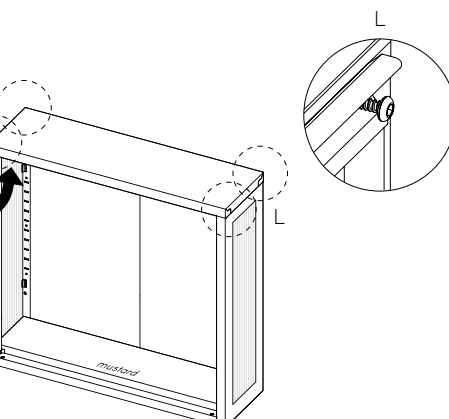

4 x 

10

Screw both panels to the top from the inside.

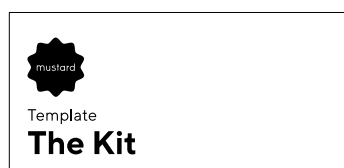

4 x 

11

Now it's time to attach the locker to the wall.

Use the helpful wall template to decide where you want your cabinet.

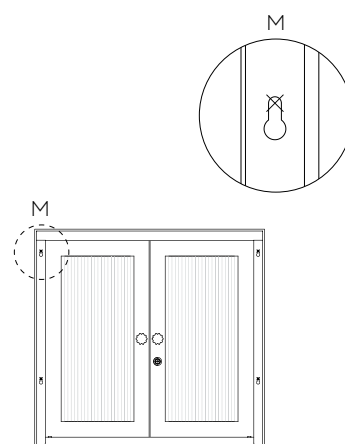

12

 **Grab your drill.**

Attach your screws at the top of the keyholes marked on the template.

Please ensure you use the correct fixings for your wall. These are not provided, so please consult a qualified tradesperson if you need advice.

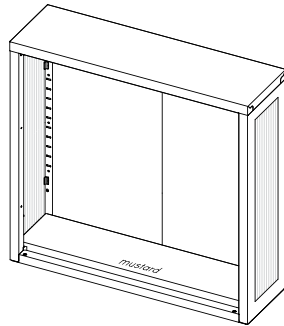

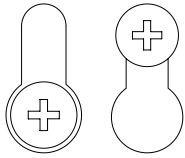

mustard

13

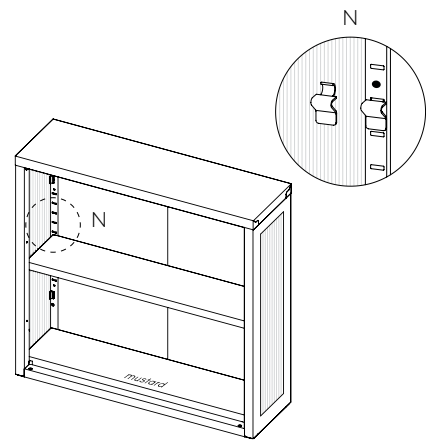

You will need an extra pair of hands for this bit.

Carefully lift the cabinet and slot the holes over the screw heads.

14

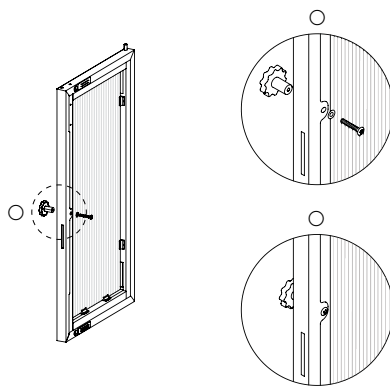

Once your locker is attached to the wall, add the brackets + place the shelf on top.

15

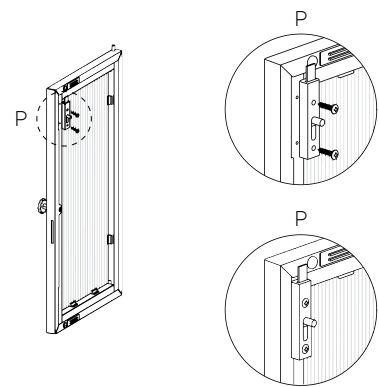

Grab your screwdriver.

Use your screwdriver to attach the handles, using the long handle screws + small washers

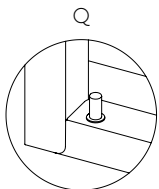

16

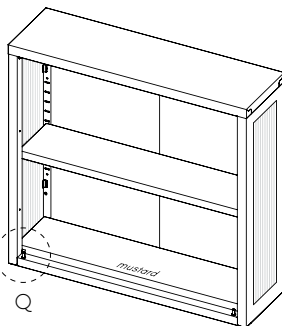

Use your screwdriver to attach the door bolt using the two bolt screws. The door bolt goes on the left door.

17

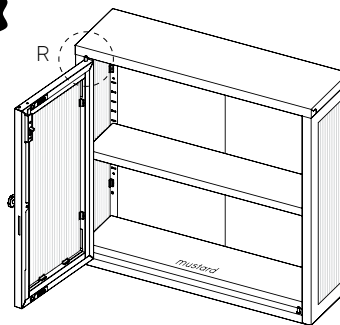

Insert the post + large washer into the hole in the U bar.

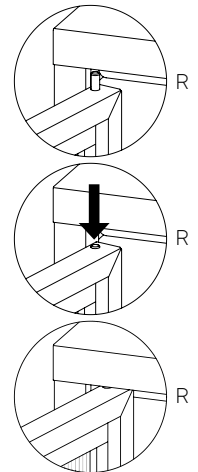

Untie the keys from the top corner of the door with the lock on it.

18

Slide the doors down onto the bottom posts. Push down the spring posts at the top + click into place.

19

Yippee!
That's the whole Kit + caboodle, high five!

P.S pop the spare key in a safe spot just in case.
