

Natural All Seasons

Hybrid 2000 Pocket Sprung Mattress

Created for all-seasons comfort

The Jay-Be All Seasons mattress is thoughtfully designed to help keep you comfortable all year round. It features a blend of natural plant-based fibres, including nettle, bamboo and mint, combined with wool, all carefully chosen for their inherent properties. These are layered with breathable e-Fibre™ fillings that support airflow to further help maintain a fresh, comfortable sleep environment - whatever the temperature. The mattress surface features a soft, knitted blend of Nettle and Better Cotton™, created for a naturally soft and cosy feel. Each material has been selected to respond to your body's changing temperature, helping to retain warmth in cooler conditions while supporting moisture management when its warmer, contributing to a more balanced sleep experience throughout every season.
