

Installation instructions

1. Use the hanging plate to determine the position of the hole to be punched in the ceiling, and then drill the hole. Hammer the white plastic gecko into the drilled hole.
2. Fix the hanging plate in the plastic gecko of the ceiling with self-tapping screws, lock the hanging plate with a screwdriver to ensure its firm fixation, and pay attention to the wiring interface (such as the instruction drawing).
3. Install the lamp arm on the lamp body, lock it tightly, and pay attention to the overall horizontal and vertical
4. After the lamp arm is installed, connect the wires in groups on the main line of the main body. Please pay attention to the color of the wire, the same color wire is connected together with a big orange wire cap, which can be reinforced with insulating tape (not included, provided by electrician).
5. Assemble the accessories of the lamp body in order to shape the lamp body.

Note: The above steps are power-off operations, non-professionals, please operate with caution, it is best to ask a professional electrician to help with installation to ensure safety. if you have any questions please feel free to contact
