STEP 2

Adjust the levelers in each leg (see photo 3) to stabilize the table so it doesn't rock or wobble. (You should be able to turn these with your fingers but if they are a little tight you may have to use pliers.)

STEP 3

For the benches repeat steps 1 & 2 and attach the legs to the benches using the same procedure as for the table except only 4 bolts are needed for each leg instead of 6. The levelers can be adjusted the same way.
