

ASSEMBLY AND INSTALLATION INSTRUCTIONS

WARNING: TO AVOID RISK OF ELECTRICAL SHOCK, BE SURE TO SHUT OFF POWER BEFORE INSTALLING OR SERVICING THIS FIXTURE.

Before You Begin:

- Ensure power is turned off at the circuit breaker before installation.
- Read all instructions carefully.
- Installation should be performed by a qualified electrician if you are unfamiliar with wiring.

Step-by-Step Installation:

Step A: Insert the threaded pipe (1) through the center hole of the decorative cap (2) and the bottom center hole of the glass shade (7).

Step B: From the top of the glass shade (7), place the metal washer (3) onto the threaded tube (1), then tighten it with the hex nut (4).

Step C: Screw the bulb (5) (not included) into the socket (6).

Step D: Remove the connector (12) from the threaded pipe (9). Then rotate the notched disc (8) in the direction of its notch to lock it inside the glass shade (7).

Step E: Place the flat cap (10) and decorative cap (11) on top of the glass shade (7), then secure them with the connector (12).

Step F: Pass the main wires through the center of the downrod (13)(14) (downrods can be connected to the desired length), then tighten the downrod onto the threaded pipe (9).

Step G: Pass the main wires through the center hole of the swivel (15) and the center hole of the canopy (17), then tighten the swivel (15) onto the downrod (14).

Step H: Use the junction box screws (18) to secure the mounting bracket (22) to the junction box.

Step I: Wire Connections

· Connect the black wire (L / Live / Hot) of the fixture's main wire to the house black wire (L / Live / Hot) using the wire connector (19).

· Connect the white wire (N / Neutral) of the fixture's main wire to the house white wire (N / Neutral) using the wire connector (19).

* Ensure that no bare wire is exposed.

· Use the green ground screw (20) to attach the fixture ground wire (21) to the mounting bracket (22), and connect it to the house ground wire.

Step J: Align the two small holes of the canopy (17) with the bracket screws (23), then tighten them using the decorative nuts (16).

Safety Instructions:

To avoid fire, shock, and serious personal injury, follow all instructions carefully.

1. Do not install or use the light fixture if any part is missing or damaged.
2. To avoid possible electrical shock, be sure electricity is turned off at the main fuse or circuit breaker box before wiring.
3. Make certain no bare wires are exposed outside the wire connectors.
4. All wiring must conform to national and local electrical codes.
5. Follow the recommended instructions for the proper method of wiring your new light fixture. If you feel you do not have enough electrical wiring knowledge or experience, have your light fixture installed by a licensed electrician. Any electrical work not described in this manual should be performed by a licensed electrician.
