INSTRUCTION MANUAL

Email:service@delarkhome.com

WARNING

- You need a helper to finish the installation.
- DO NOT let children climb the product.
- To avoid suffocation danger, keep small parts and package materials away from children.
- Adult assembly required. Keep children away during the installation.
- You could use "corner guard" to protect children from getting hurt by the product's edges.
- Carefully separate and identify all the parts included in your package. Con - firm that you have all the components listed in the instruction manual. If any parts were missing, broken or wrong delivered, contact us immediately via service@delarkhome.com, we are here to help you.

Assembly Instructions

Before begining the assembly process, please read and save these instruc- tions for reference.

Following these guidelines will ensure a smooth and successful assembly of your product.

- **Work Surface :** To prevent any scratches or damage to the product, assemble it on a soft mat or a similar protective surface. This will provide a cushioned area for the components and protect the surfaces from unwanted marks.
- **Step - by - Step Assembly :** Follow the assembly instructions provided, proceeding one step at a time. Take care to understand each step properly before proceeding to the next one. This sequential approach ensures that the assembly is done correctly and minimizes the chance of errors.
- **Proper Screw Seating :** When attaching screws and nuts, it is essential not to fully tighten them until all screws are correctly seated. By partially tightening each screw and nut initally, you can ensure that they are aligned properly and fit securely before final tightening.
- **Avoid Over - Tightening :** While each screw and nut should be tightened correctly, it is crucial not to over - tighten them. Over - tightening can cause damage to the product or compromise its structural integrity. Use the appropri- ate amount of force to secure the components without excessive tightening.

CUSTOMER SERVICE

If you encounter any questions or problems during the assembly process，please do not hesitate to contact us.
We strive to provide excellent customer support and will respond to your inquiries within 24 hours. Our team will offer you a suitable solution toaddress any concerns you may have.

Operating Instruction: To open or close the drawer, press the area near the drawer front panel that has a rebound device.

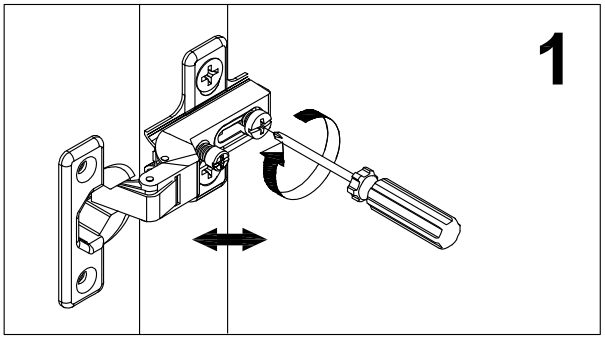

Note: You can adjust the knobof the bouncer to control the bouncing effect.

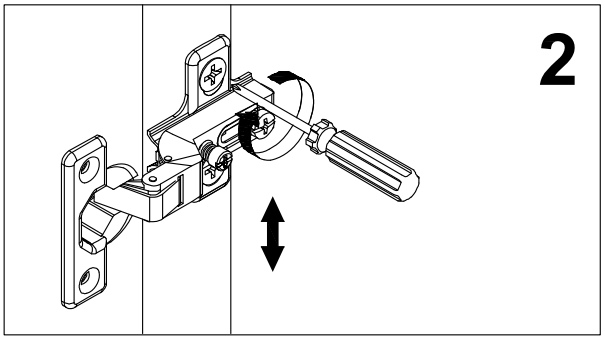

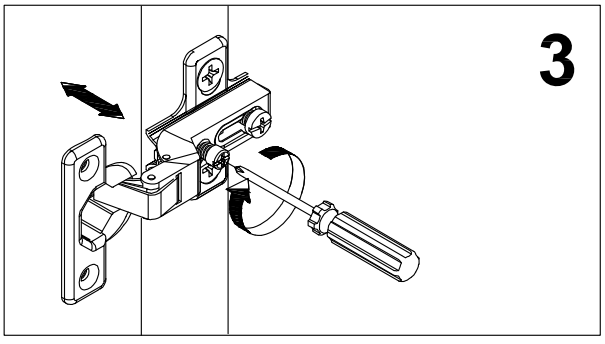

INSTALLATION STEPS

Components Name

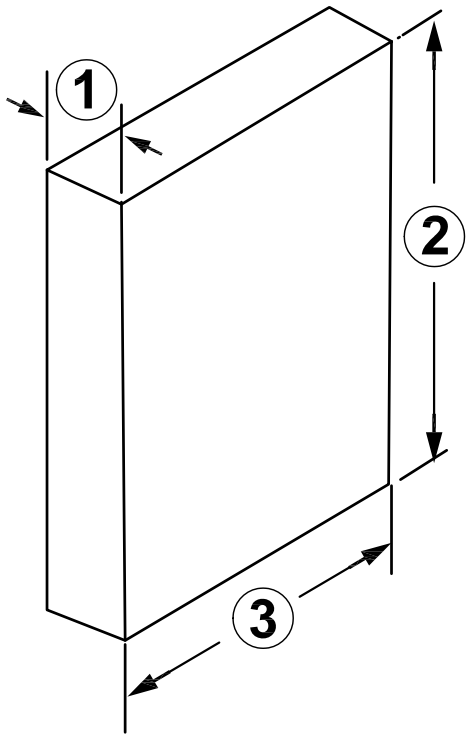

Doors may need to be adjusted after the initial shipping of the cabinet . The cabinet doors have a three-way adjustment fea-ture. Height, side to side, level and depth can be adjusted. With the hinge slightly closed you can access the middle screw for up / down adjustment.With the hinge fully extended you can access the front and back screws. These screws will move the door side to side and in and out.
