

**Product Name:** Upgraded LED Flame Bulb

**Packaging Specifications:** 2/4/6/8/10 pack

**Product Features:**

- 4 different flickering modes for a variety of lighting effects.
- Suitable for E26 sockets, with strong compatibility.
- Equipped with a gravity sensor for dynamic effects when inverted.
- 3W power, providing 600 lumens of brightness.
- Yellow light source to create a warm atmosphere.
- Ideal for Halloween, Christmas, parties, fireplaces, or chandelier decorations.

**Product Components:**

1. LED Flame Bulb
2. Product Manual
3. Installation Guide

**Installation Steps:**

1. Ensure the bulb is compatible with E26 sockets.
2. Turn off the power supply to ensure safety.
3. Screw the LED flame bulb into the socket.
4. Turn on the power supply and check if the bulb is working properly.

**Usage Modes:**

- Control the 4 different flickering modes through the wall switch.
- The bulb has a gravity sensing function that enables dynamic effects when inverted.

**Precautions:**

- Check the bulb for any damage before use.
- Avoid using in damp or flammable environments.
- The bulb is designed for single use and does not allow for internal component replacement.
- Please install and use the product correctly according to the instructions.

**Maintenance and Care:**

- Keep the bulb clean to avoid dust accumulation affecting the lighting effect.
- If the bulb does not light up, check the power connection and bulb installation.

**Product Support:**

- We provide detailed product manuals and installation guides to ensure easy installation and use.
- If you encounter any issues during use, please feel free to contact our customer.
