Installation Instruction

The medicine cabinet supports two installation methods:
1.Surface Installation and **2.Embedded Installation**.

Please choose the installation way as needed.

Some cabinet doors will be separated from the cabinet to reduce packaging volume. Please install the cabinet door after completing the cabinet installation according to the instruction.

Before installing the medicine cabinet, please remove the cabinet doors first. This will make the installation easier and more convenient.

1. First, disconnect the wires from the cabinet doors.

2. Then, press the end of the hinges and detach the cabinet door.

Surface Installation Instruction

Verify minimum clearances

STEP 1

H is the total height of the medicine cabinet, and W is the total width of the medicine cabinet

STEP 2

Surface Installation Instruction

Mark hole locations on the wall. Drill holes Insert anchors where needed

STEP 3

Secure the bar with Flat head screws

STEP 4

Lift the cabinet and align the mounting rod on the back of the cabinet with the wall mounted rod to ensure firmness.

STEP 6

STEP 5

Surface Installation Instruction

Place the support angle on the bottom of the cabinet and mark hole location on the wall. Drill hole and insert anchor where needed. Fix the support angle by screw. Always look for wood studs behind the drywall for stronger installation. The studs are 16" apart.

STEP 7

Install the glass shelves by mounting them over the clips.

STEP 8

Step10: Cabinet Door Installation

1.Insert the hinges to the base ,then connect the doors with the cabinet

2.If necessary , adjust corresponding screws on the hinge to align the doors, ensure that gaps are even and the doors open and close smoothly

3. Connect the electrical cord on the door to the cabinet and tighten it properly.

Embedded Installation Instruction

Before installing, it is necessary to determine the opening size, which can be referred to in the table below.

Actual cabinet		Wall opening dimensions for embedded installation all in Inches.		
No.	Dimensions	W (Width)	H (Height)	D (Depth)
1	30" × 24"	29-1/4	23-1/4	4-1/8
2	36" × 24"	35-1/4	23-1/4	4-1/8
3	40" × 24"	39-1/4	23-1/4	4-1/8
4	48" × 24"	47-1/4	23-1/4	4-1/8

Embedded Installation Instruction

Determine the size of the opening

STEP 1

STEP 2

For certain models, there are reserved wiring ports on both sides, intended for connecting other products. If you don't need to use them, please neatly organize the wires.

STEP 3

STEP 4

*All diagrams are for reference only. All model dimensions and proportion position will vary.

Step5: Cabinet Door Installation

1.Insert the hinges to the base ,then connect the doors with the cabinet

2.If necessary , adjust corresponding screws on the hinge to align the doors, ensure that gaps are even and the doors open and close smoothly

3. Connect the electrical cord on the door to the cabinet and tighten it properly.
