

Multifunctional side table

Accessory List

Installation Steps

1. Take out the bottom shelf and casters, fix the casters on the back of the bottom shelf with small screws

2. Take out side baffles A and B; fix them with large screws (the side of the baffles with grooves faces upward and inward)

3. Stand up the frame

4. Take out baffle C; fix it with large screws

5. Take out the small shelf; fix it with large screws

6. Continue to take out baffle C; fix it with large screws

7. Take out baffle D; fix it with large screws (align with the grooves of the side baffles)

8. Take out the bottom panel and insert it along the grooves

9. Take out baffle A; fix it with large screws

10. Take out baffle B; fix it with large screws

11. Take out the small strip; fix it on the back of the top shelf with medium screws

12. Finally, fix the top shelf to baffle B with the extra-large screw (align the holes of the top shelf with those of baffle B)
