1

2

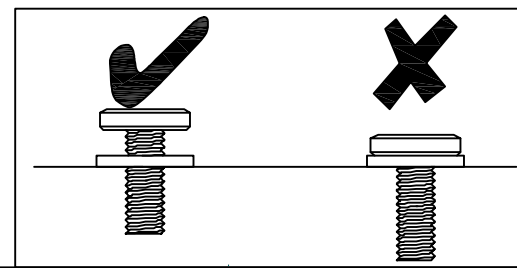

Screw assembly won't go up,
solution one

It takes two people to assemble, first loosely
install a screw, one person holding the basket,
ready to wear the screw holes, the other
person force the right screw holes

Do not fully tighten screws until all parts are assembled.

2

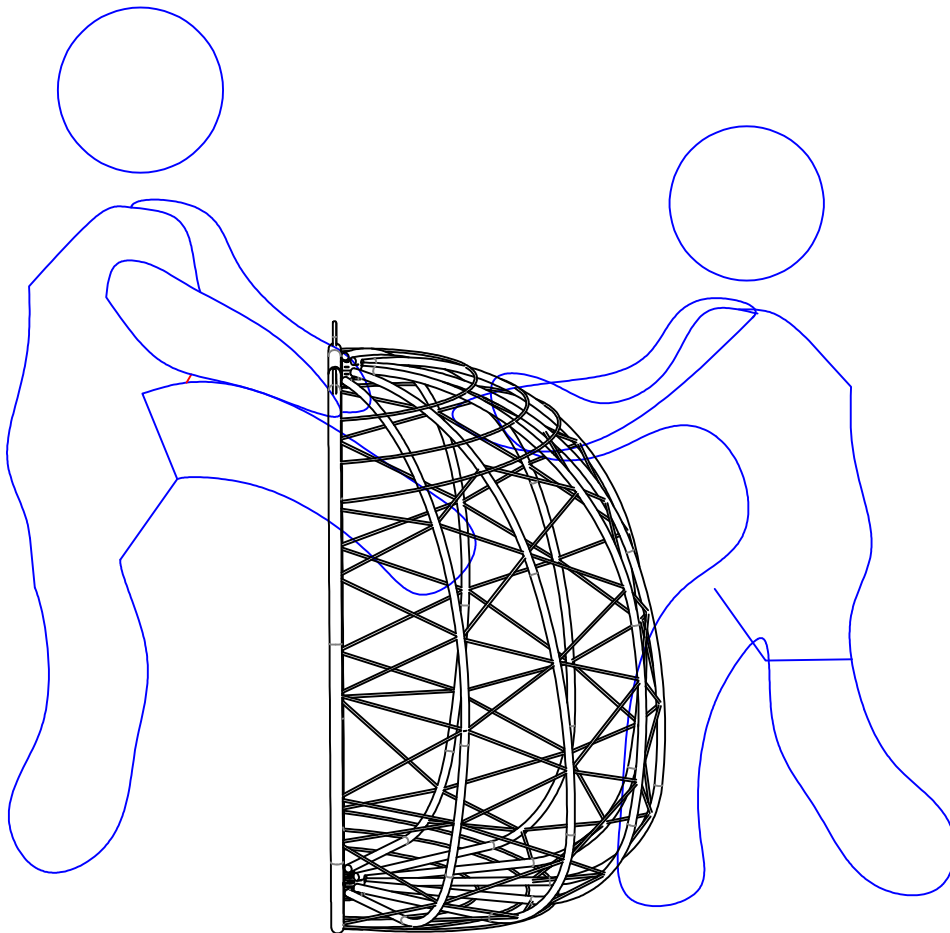

3

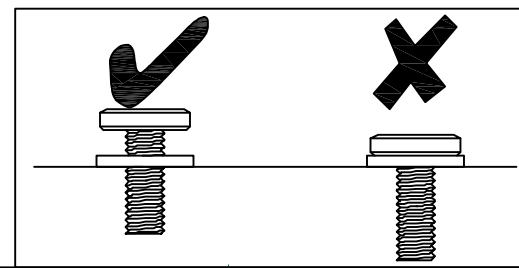

Screw assembly does not go up,
solution two

The second way, one person holding the
screw, one person knee against the pipe, so
that the hole position is right.

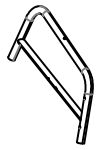

Do not fully tighten screws until all parts are assembled.
