

Cleaning Care Instructions

- 1.) Vacuum the piece of furniture thoroughly, being sure to use the soft brush attachment (leather scratches easily). If the suction on your vacuum is too strong, consider using a smaller handheld vacuum with less power to prevent leaving marks on the leather.
- 2.) Mix a few drops of liquid soap with about a quart of distilled water, mixing until suds form.
- 3.) Test a small, inconspicuous area of the furniture first.
- 4.) Dip one of the rags in the soapy water and wring out thoroughly.
- 5.) Working one section at a time, wipe the surface of the furniture with the damp rag.
- 6.) Dip a separate rag in clean distilled water (no soap), wring thoroughly, and wipe away the soap residue.
- 7.) Dry thoroughly with the third rag.
- 8.) Buff the surface with the fourth clean rag to restore luster.
- 9.) Treat the surface with leather protector/conditioner (optional).
