9

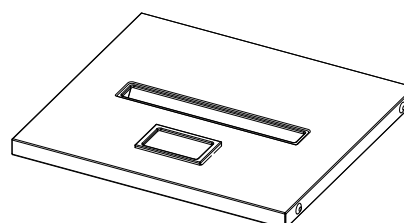

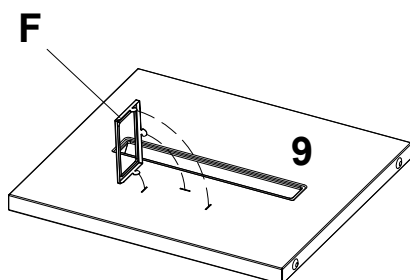

This step is to connect the cabinet to the wall, if you do not need to ignore it

back

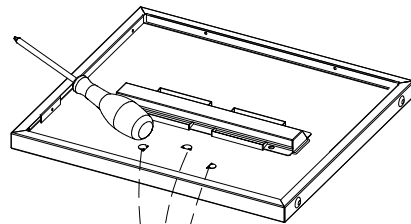

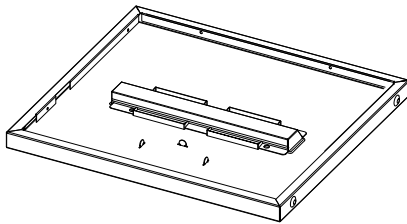

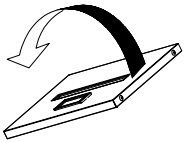

10

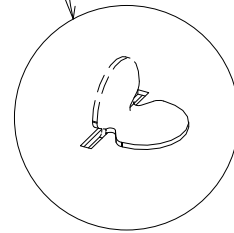

Place the part F according to the drawing

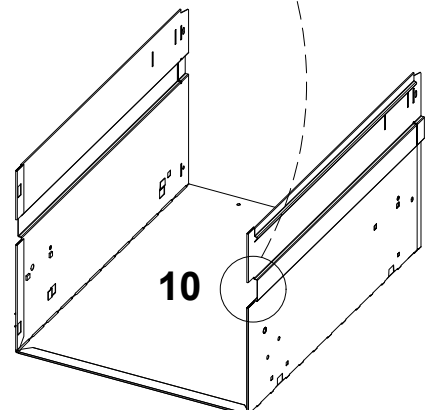

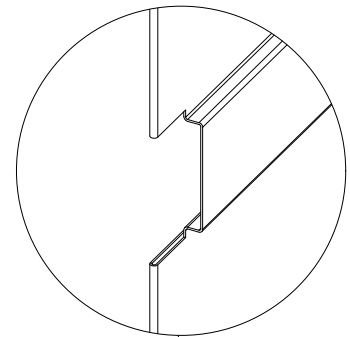

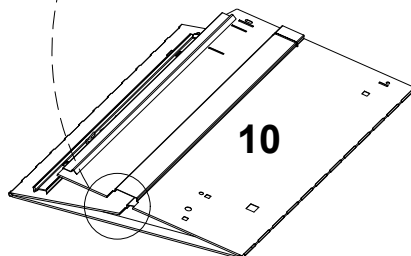

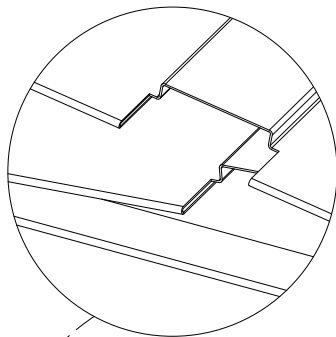

11

Flat the iron sheet with a screwdriver

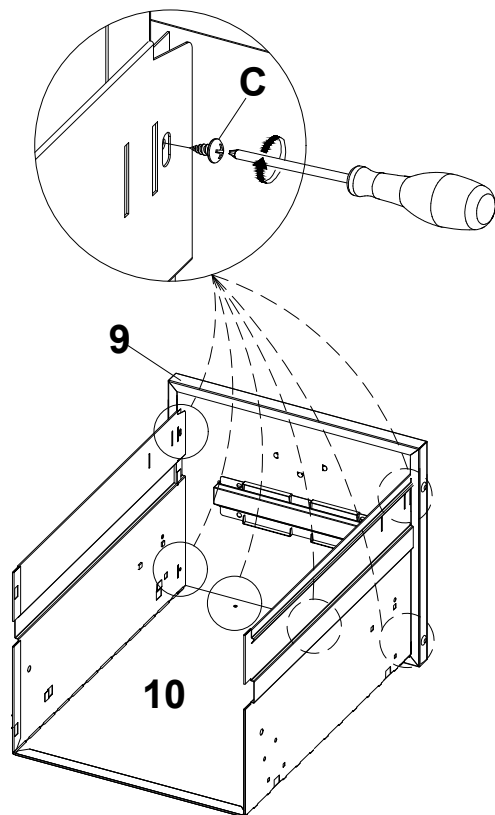

12

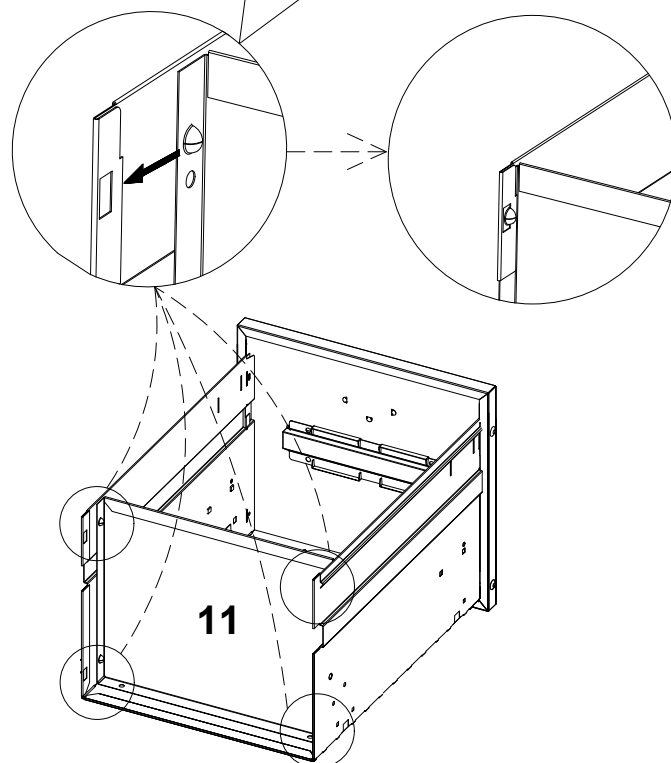

Bend the side walls of the drawer to vertical

13

put six screws to hold part 10 into place.

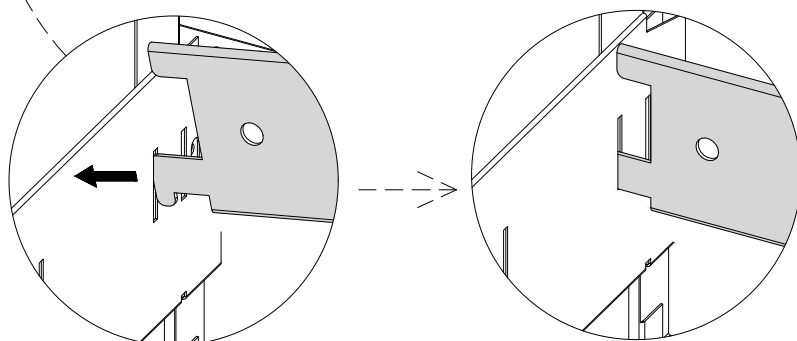

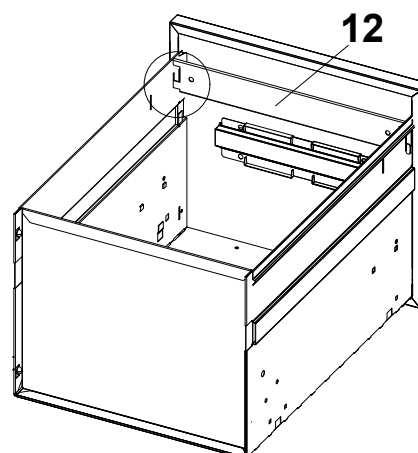

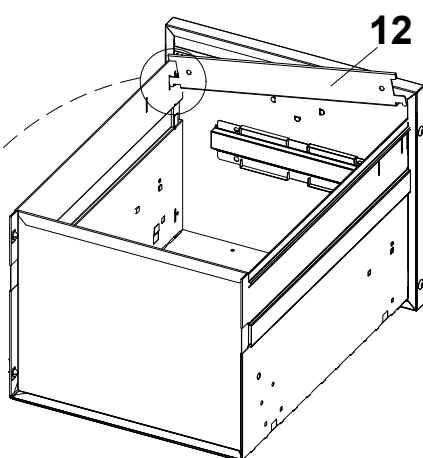

Tap lightly Rear plug

 **C×24**

14

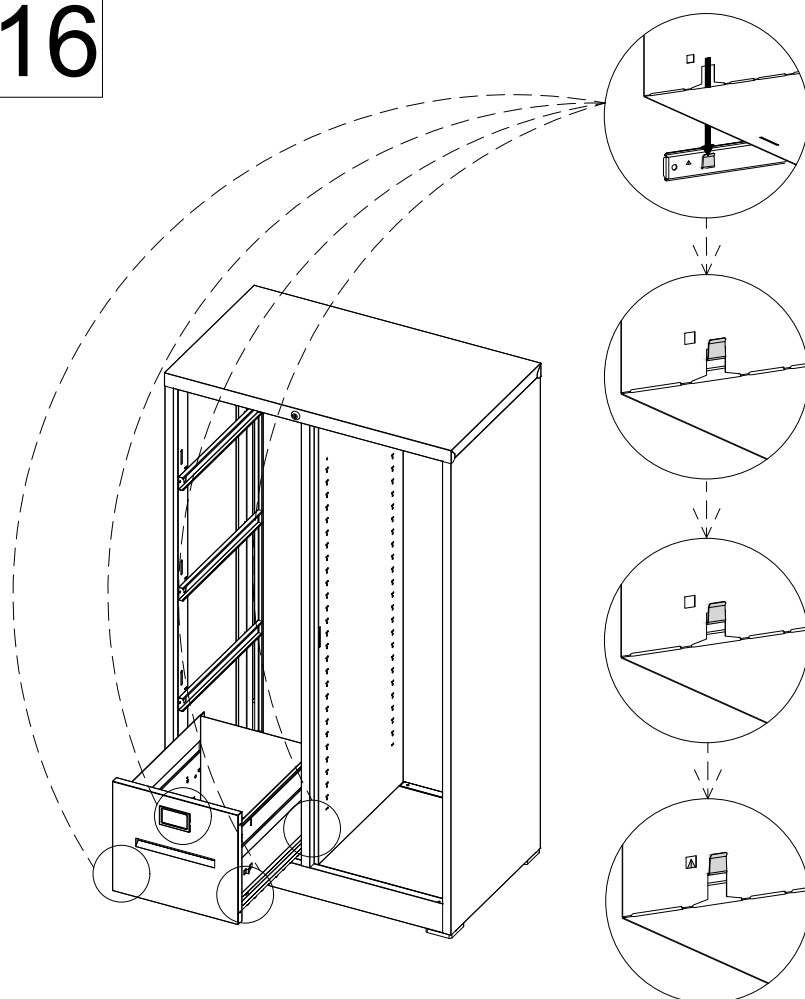

the file hanging bar can be put inside

15

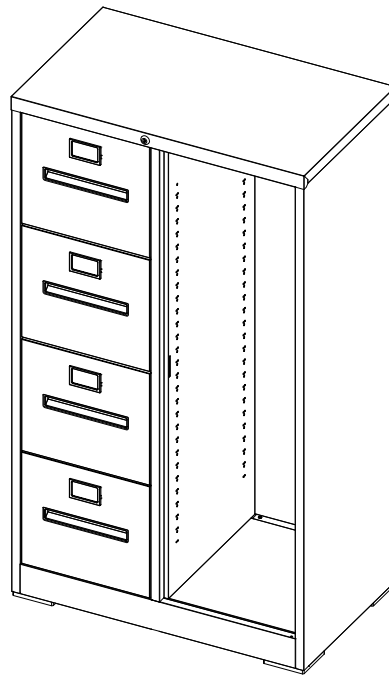

16

1. pull out the small rails in the slide rails on the side walls completely. with two people lifting each side of the drawer, align the four divots on the bottom with the two rail clips on the rails on each side and insert them into the rail clips.

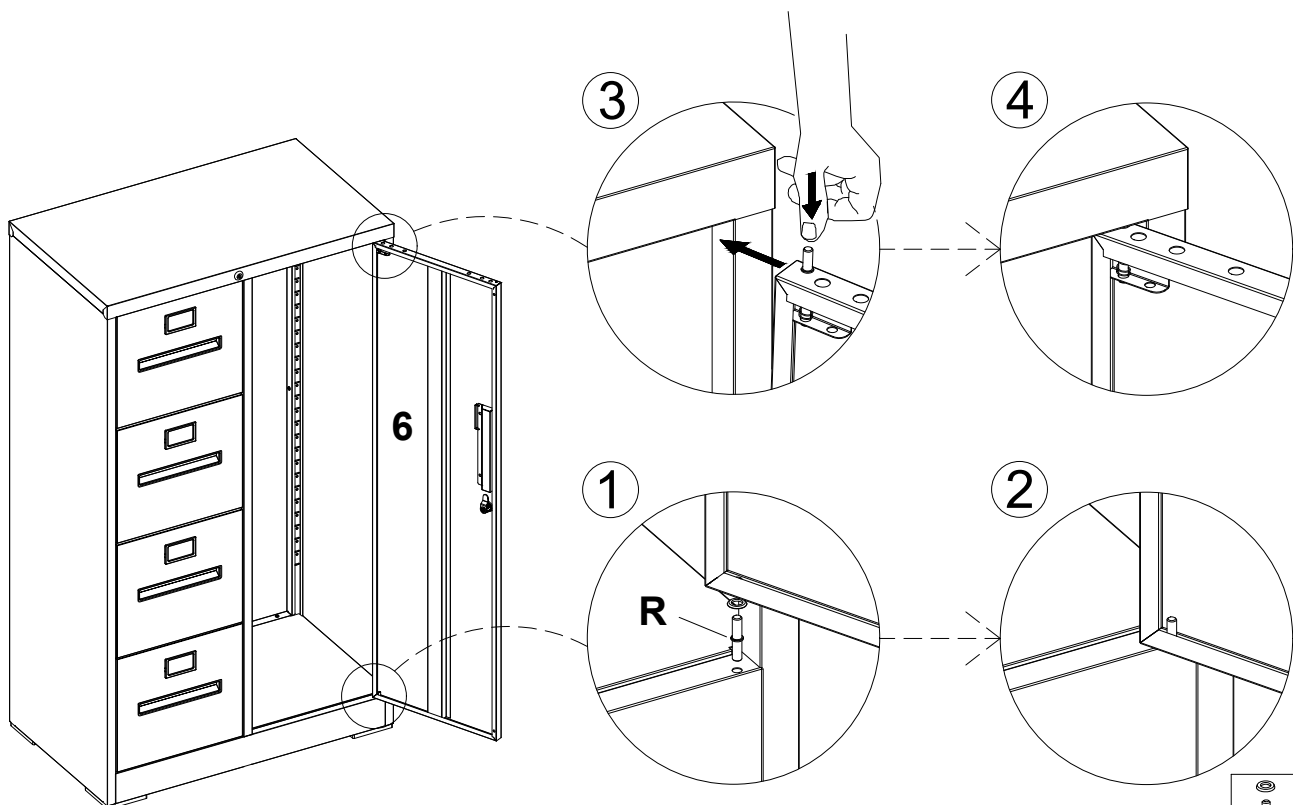

2. After placing the drawer on the rail, press the drawer base down hard enough, paying attention to check the position of the four clips inside until you hear a click four times, which means the drawer is in place

17

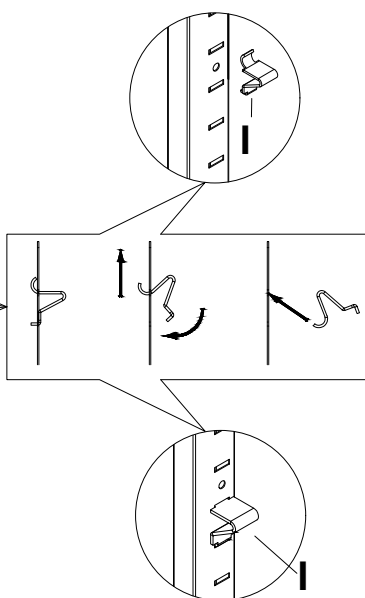

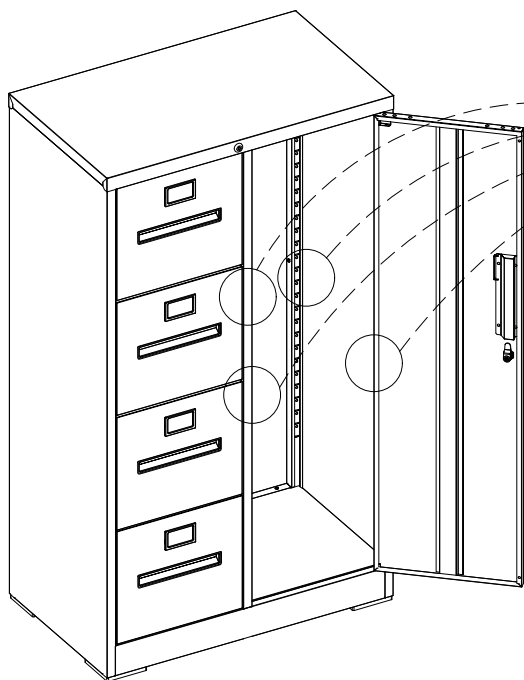

18

Install the door on one side by first installing the door shaft screw R, then by pressing the spring screw on the top of the door.
