### **How to choose the correct size:**

- 1.Measure the depth of the cabinet(or other furniture have Drawers),so it is no need to know the full length of this item,you only need to know the depth of your cabinet.
- 2.The depth(the length of the place you need to install this item,please see the picture) is between 12"~14",you can choose both 12" and 14".If the depth is between 14"~16",you can choose both 14" and 16",and so on.
- 3.For example,when the measurement of your cabinet is 17.5",you can choose 16" or 18" item.
- 4.When you install this item,please make sure the smallest side is in contact with the inside of the drawer front panel.(please see the picture)

### **How to install this drawer slides:**

- 1.Press the handle of the buckle mechanism,take out the drawer slides which need to be fixed on the drawer
  - 2.After adjusting the position, screw the drawer slides in place on both sides of the drawer.
  - 3.Use the same way,fixed the rest of the drawer slides on both insides of the cabinet .
  - 4.Aim the slide rail on the drawer at the slide rail on the cabinet,push it with a little harder.
  - 5.Done! Now you have a nice durable mute drawer!Enjoy it!
