STEPS TO ASSEMBLE THE LADDER

01

Lay out the parts of the ladder in front of you.

02

Unscrew and remove the round black plastic piece from the straight poles.

03

Place the round black piece (that you removed by step 2), over the opposite end of the curved handle. You will then connect the straight pole into the curved handle, secure it with the screw.

04

Remove the bottom cap of the straight pole, by pulling it off from the straight pole.

Before you continue.... Make sure there are no screws in the steps, remove them if they were there by default.

05

Slide the straight poles through the holes at the end of the plastic steps.

Adjust the position of the first step to align with the screw holes, tightly secure it with the screws, (2 pieces per step). Do the same for the 2nd and 3rd step.

Note:

Pay attention to the direction of the screw, the hexagonal nut and the top screw should both be on the same side.

FRONT

BACK

06

Put back the caps onto the straight pole.

07

Rotate the curved handle by 90°.

08

The ladder assembly is complete.

Other Accessories :

Ladder with Metal Steps	UBL3S-42-G
Ladder with Flat Steps - Blue	UBLBFS3-42
