

PENDANT

PLEASE READ AND SAVE FOR FUTURE REFERENCE.

CAUTION

1. Turn off the main power at the circuit breaker before installing the fixture in order to prevent possible shock.
2. All electrical connections must be in accordance with local and National Electrical Code (N.E.C.) standards. If you are unfamiliar with proper electrical wiring connections, obtain the services of a qualified electrician.
3. **WARNING:** The outlet box must be capable of supporting at least 25 lb.

GENERAL

Remove all parts and hardware from the box and make sure that none are missing by referencing the illustrations provided.

CAUTION: Do NOT overtighten cord restraint.

CARE & CLEANING: Initial care for finishes requires periodic cleaning with a soft cloth, dampened with water. A mild non-abrasive soap may be used along with a soft cloth and water if the fixture is very dirty. Particular care should be taken to avoid abrasive materials and strong cleaning agents as they will quickly destroy the protective coatings and subject the finish to oxidation and discoloration.
