

LP9UV

UV Illuminator Light 9-LED

3 AAA
Batteries

Features

- Operating Ultraviolet light 385-390 nm
- Constructed with aircraft-grade aluminum
- 9 UV LEDs
- Enhanced rubber grip
- High quality wrist lanyard
- IPX4 waterproof rating
- Batteries included (3 AAA)

Operation Instructions

On/Off: Press and release the button on the tail cap to turn the light on and off.

Battery Replacement

The LP9UV uses 3 AAA batteries. To replace the batteries, turn the tail cap counterclockwise to remove it. Tip the light downward to slide out the battery case which contains the batteries. Remove the batteries from the case and insert new batteries according to the (+/-) symbols found on the case. For best results, we recommend using brand new alkaline batteries that are the same voltage and brand.

Re-insert battery case into the flashlight (+) side first with the arrow on the battery case pointing down. Re-attach the tail cap by pressing down lightly and turning it clockwise until tight.

If you know it will be a while between uses, we suggest removing the batteries from the flashlight and storing it in a dry, protected place.

Product Warranty

The LP9UV has a Limited 30-Day Warranty Against Manufacturer's Defects from time of purchase.

For warranty claims please contact us by calling 801-553-8886 or sending an email to info@simpleproducts.com
