

STONework BARCODE IVORY TRAVERTINE 12X24 3D VEIN CUT POLISHED + HONED TILE

The Ivory Travertine 18x36 Vein Cut Filled Honed Stone Tile is a premium travertine with a light tonality, featuring bands of white, cream, and taupe that highlight the stone's natural layering. This vein-cut travertine is filled with a cement-based blend then honed smooth. Adding effortless elegance to walls and floors, each of these large-format tiles is cut with dimensional barcode lines and is mesh-backed for lasting strength, though it is not recommended for high-traffic areas.

STONework

With a nod to the magnificent columns of the ancient world, the Stonework Collection demonstrates simple decorative brilliance in natural stone. This collection is available in 3D-textured patterns in multiple marble options. For a cohesive look, you can easily match your Stonework walls to floor tile made of the same marble.
