Blanched Bulwark 2

D1279S25575-1968

Blanched Bulwark II calls to mind the early work of Robert Rauschenberg of the early 1950s. As with Rauschenberg's work, texture plays a major role in this large vertical work on canvas. Strong horizontal lines provide emphasis and lend movement to this piece. A textural feel is achieved with shorter brushstrokes and dabs of color. A muted color palette in bone, ecru, slate, and charcoal pulls together this fine work of art.

Blanched Bulwark II creates an elegant blend of neutral tones and stark lines in this original work for ART by TA.
