

## Get Organized in Minutes

BinTRACKS™ are designed for ease of installation and are pre-drilled to accommodate 12, 16, 20 or 24-inch structural spacing. Included screws (2 per track) are utilized to secure the tracks to your garage or basement ceiling. Directions for alternate mounting options utilizing wood strapping (not included) are available.

- Easy to Install
- Unique patent-pending product
- Simple solution to everyday storage needs
- Turns unused overhead space into functional storage
- Holds many common bin styles (See back of brochure for compatibility criteria)
