

Concrete & Metal

Oil burning

A HOW-TO GUIDE

OIL BURNING FIRE BOWLS

NO GAS REQUIRED | NO INSTALL | NO MOSQUITOES

STEP 1

Select your oil of choice and place in an easy to pour container

STEP 2

Remove rubber stopper from fuel port and insert funnel

STEP 3

Pour oil into funnel and stop when fuel indicator is full, remove funnel & replace rubber stopper

STEP 4

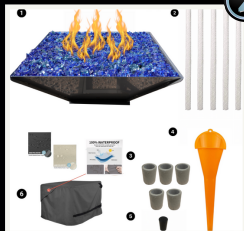

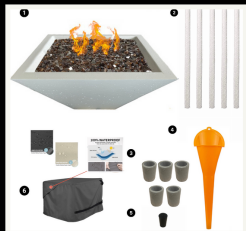

Light wicks, using long - reach lighter, and ENJOY!

STEP 5

To extinguish flame, take flame snuffer and replace directly on-top of each wick
