

INSTALLATION AND SAFETY INSTRUCTIONS

FOR YOUR SAFETY WARNING

Be sure the electricity to the wires you are working on is shut off. Either the fuse is removed or the circuit breaker is shut off

GENERAL

Installing this fixing device does not require special tools. Please make sure to follow the given sequence of steps. Under no circumstances should the fixing device be hung on the house's wires, nor should a suspended fixing device be installed on the ceiling of a room with radiant heating system. Please read the instructions carefully. If you are not sure how to operate, please consult a qualified electrician. Note: Proper wiring is crucial for the safe operation of this fixing device.

INSTALLATION

Step1: Secure Mounting Bracket to ceiling junction box using Mounting Screws.

Step2: Measure desired fixture height. Once determined, thread fixture wire through selected Drop Rods and secure to the Frame. Thread wires and rods through Canopy Secure using the nuts and washers. Note: Copper ground wire should be placed between two lock washers.)

Step3.1: Connect black fixture wire to black supply wire and white fixture wire to white supply wire using wire caps (provided). Wrap connection with electrical tape.

Step3.2: Connect ground wire from canopy with ground wire using a wire cap. wrap with electrical tape for a more secure connection. If house does not have ground wire, attach grounding wire to green grounding screw marked GND. (WARNING: Never connect grounding wire to black or white power supply wires. It is imperative that the outlet box in your home be properly grounded.)

Step4: Place Canopy over Mounting Bracket and secure using Decorative Fastener. Connect the Drop Rods to the frame.

Step5: Install the bulb. Then install the Glass cover to the Notched flying saucer, tighten with nuts -Assembly complete.

CLEANING

To clean, wipe fixture with a soft cloth. Clean glass with a mild soap. Do not use abrasive materials such as scouring pads or powders, steel wool or abrasive paper.
