DESIGNART CANVAS WALL ART

Thank you for your order!

Please note that each and every sale of DesignArt artwork, be it an oil painting, canvas art print, metal art, wood art, designed clock or one of our textile items supports an artist and allows them to live through their passion.

Every DesignArt creation started with an artists inspiration. A vision of what could be where nothing currently is. The deep desire to express one's own creativity and share it with the world. Through our many product lines, DesignArt allows artists and designers to express their ideas and creativity across many mediums.

Canvas Hanging Instructions:

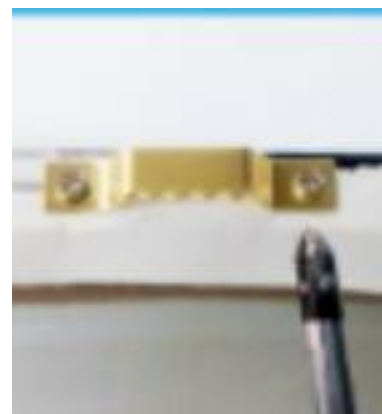

Please follow the instructions below for Canvas wall art :

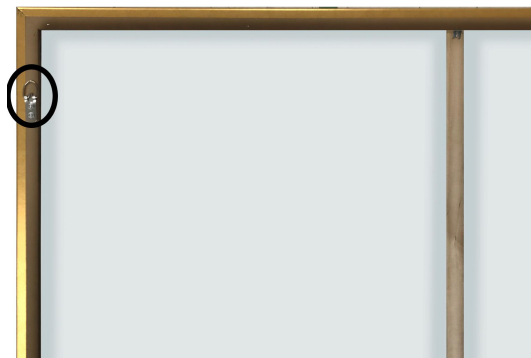

Step 1: Using a screw driver mount the brackets onto the back of the wood frame. For multi panel artwork, insert one bracket per panel, teeth side down. For single panel canvas insert 2 to 4 brackets, depending on the size.

Step 2: Using a flat head hammer insert the panel pin with rubber attachment in the desired space on the wall. This is done by tapping the panel pin with a hammer until it is securely in the wall.

Step 3: Using a measuring tape measure the distance from your first panel pin to the desired placement of the second panel pin. Mark the wall and insert the second pin. Repeat the measurement per number of panels to ensure even spacing and repeat step 2 to install pins.

Framed Wall art Hanging Instructions:

Please follow the instructions below for Framed Canvas wall art :

Step 1: Using a screw driver mount the brackets onto the back of the wooden frame as shown in image of bracket. For multi panel artwork, insert one bracket per panel. For single panel canvas insert 2 brackets, depending on the size.

Step 2: Using a measuring tape measure the distance from your first bracket to the desired placement of the second bracket. Mark the wall and insert second hook. Repeat the measurement per number of panels to ensure even spacing.

CANVAS CARE GUIDE

FIXING CREASES :

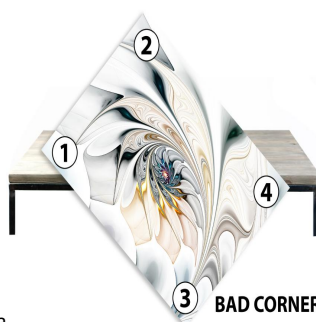

On the back of the canvas, rub the piece of ice directly to the crease for about 30-60 seconds.

Let it dry for 15-20 minutes and the crease or indentation should go away. Avoid over saturating or the canvas may need to dry for a longer period of time.

FIXING WARPED FRAME :

Warped frames can be ea

sily fixed by bend

ing them back.

Place the art along a table's edge as shown. Place your hands on the corner that was coming away from the wall and it's opposite corner. Gently push down on the corners to stretch the canvas diagonal. Hang your art wok on the wall and test. If it is still coming away from the wall, repeat the above steps again.

SHARING IS CARING

WIN A FREE DESIGNART PRODUCT OF YOUR CHOICE!

If you love your DesignArt new product, Please take a moment to share your experience online by leaving us a positive review and uploading a photo of the product you received to the website where you made the purchase.
