OPERATIONS MANUAL

Dear Customer：

Thank you for choosing us! We truly appreciate your business and your trust. If you have any questions or encounter any issues, please don't hesitate to reach out. You can contact us by email at amzlightting@outlook.com. Our team is committed to ensuring your complete satisfaction. We also value your feedback, as it helps other customers make informed decisions. If you're happy with your purchase, we'd be grateful if you could take a moment to leave a brief product review on the platform where you made your purchase. Once again, thank you for choosing us. We look forward to serving you again!

Best regards,
The Support Team

Step-by-Step Instructions for Lampshade Assembly

To better protect the lampshade from damage during transportation, it arrives rolled, and you may notice wrinkles or creases on the edges when you first put it up. Do not be alarmed; this is not a permanent issue or defect. Be prepared for the possibility that it may take several days or weeks for the lampshade to regain its natural shape.

First, assemble the shade by attaching the sides together using Velcro. Align the frame with the edge of the lampshades and secure it in place using fasteners. Repeat the process for the second frame. Ensure that the frames are firmly attached and the lampshades are tightly stretched.

1

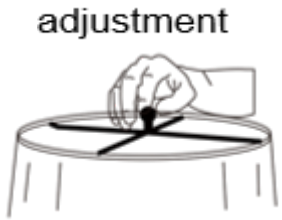

Install the harps onto the lamp base by positioning them over the sockets. Next insert the bulb into the socket and rotate it clockwise until it is securely in place.(bulbs are not included).

2

Once the lampshade is positioned correctly, screw the finial into place to hold it securely. (If the lamp shade is slanted,adjust the base of the finial to make it level).
