Product Description: Exuding a global vibe, the Aventura San Marcos Nightstand has a rich rustic Smoky Arabica finish over tactile White Oak and Pine Knotty Oak Veneers, accented by a Bluestone top. Featuring two drawers with self-closing drawer guides, one electrical outlet and a touch dimmer switch for your lamp.

Collection Features: Miramar truly takes a world view of design with each of its specific lifestyles, allowing Hooker Furniture to address a wide range of design styles. While each group stands on its own, pieces from Aventura, Point Reyes and Carmel can also seamlessly blend together to create a truly, one-of-a-kind, curated look. Every detail, down to the custom-designed hardware, has been developed perfectly to deliver a unique experience, inspired by global designs.

Floor to bottom of base rail: 4 1/4
One electrical outlet
Bluestone top
Touch dimmer switch for your lamp

Material: White Oak and Pine Knotty Oak Veneer

Drawer Construction: Hooker Furniture offers full height, full depth and full width drawers for maximum storage capacity. All drawers have strong, time-tested English or French dovetail construction, for years of problem-free use. Plywood drawer bottoms are attached to plywood drawer sides for strength and durability. Metal side guides or wood on wood guide systems operate smoothly.

Finish Construction: Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

Frame Construction: Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
