

PARISIENNE

PARISIENNE model monoblock chair, entirely made of polycarbonate, stackable up to four chairs high, it is also suitable for outdoor use.

The chair is characterized by the rounded shapes and its absence of sharp edges, traits which evoke the soft style of the classic French bistro chairs of the early 1900s. Made of polycarbonate, a material that ensures excellent resistance to shock and weathering, it is very lightweight and easy to move.

Extremely functional, with a unique design, it is the ideal chair for decorating the kitchen, bar or the common areas outdoors. Available in various finishes, glossy or transparent.
