Pay attention to the direction of the door hinge, rotate the screws to compress the black gasket, and do not place it in the opposite direction

Place the black gasket on the side where the screws are installed

Step 31

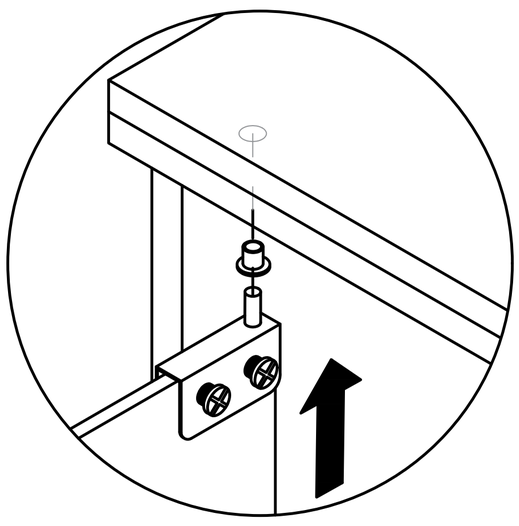

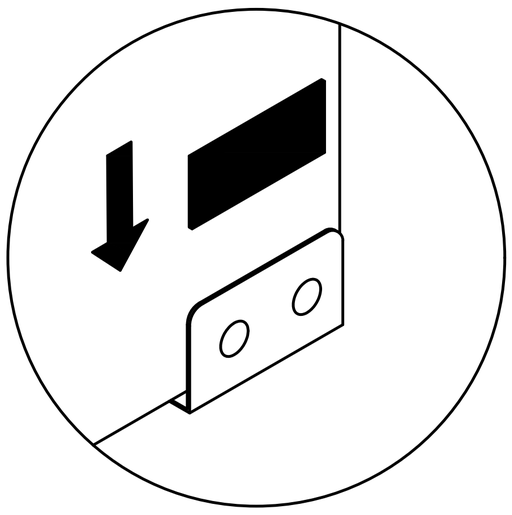

Step 32

Pay attention to the direction of
the door hinge during installation

When installing a glass door, it is recommended to have two people install it to avoid the glass door colliding or hitting oneself.

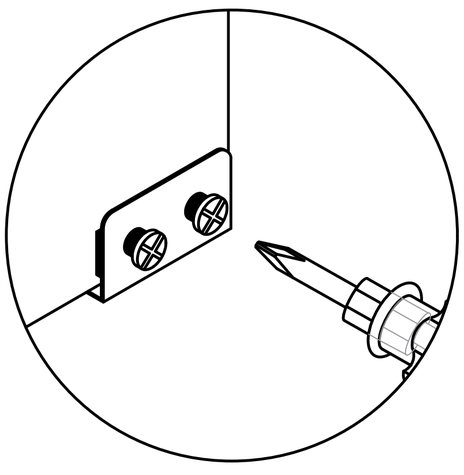

first

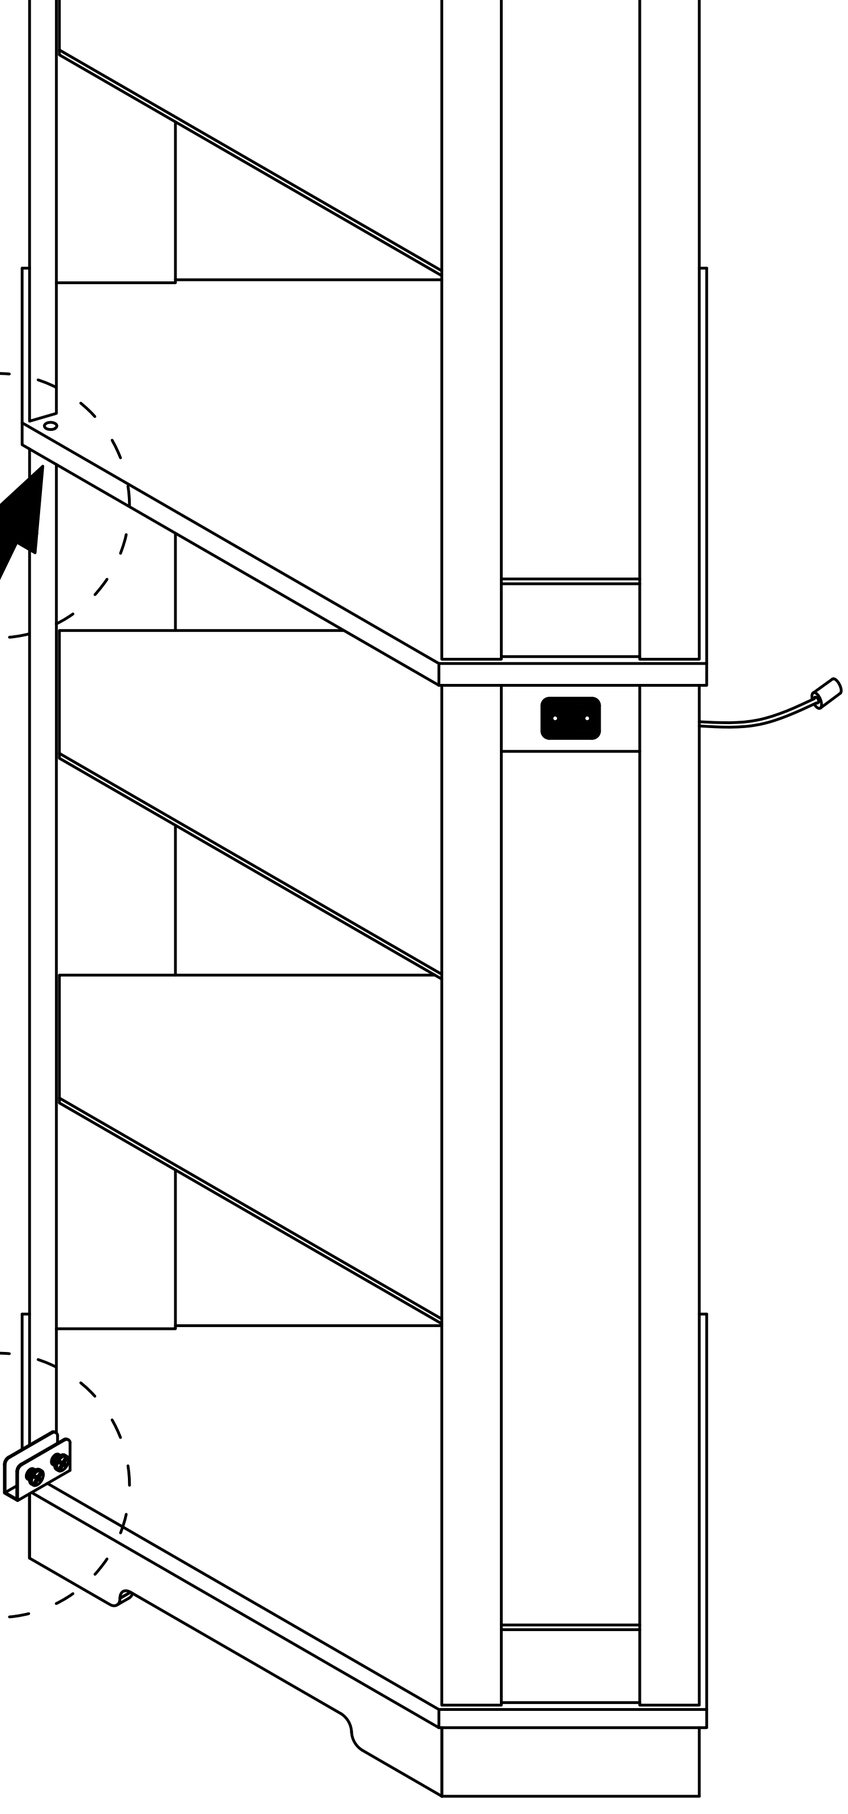

second

After installing the glass door, place the black gasket on the side where the screws are installed

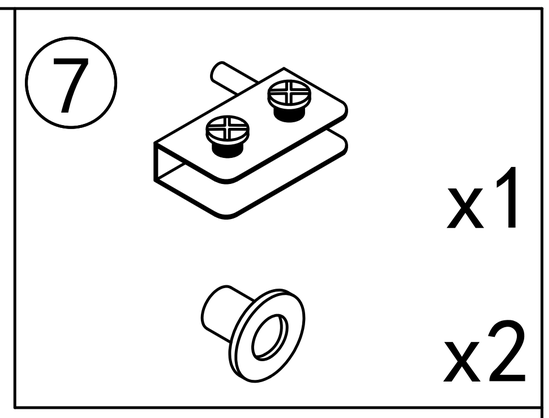

third

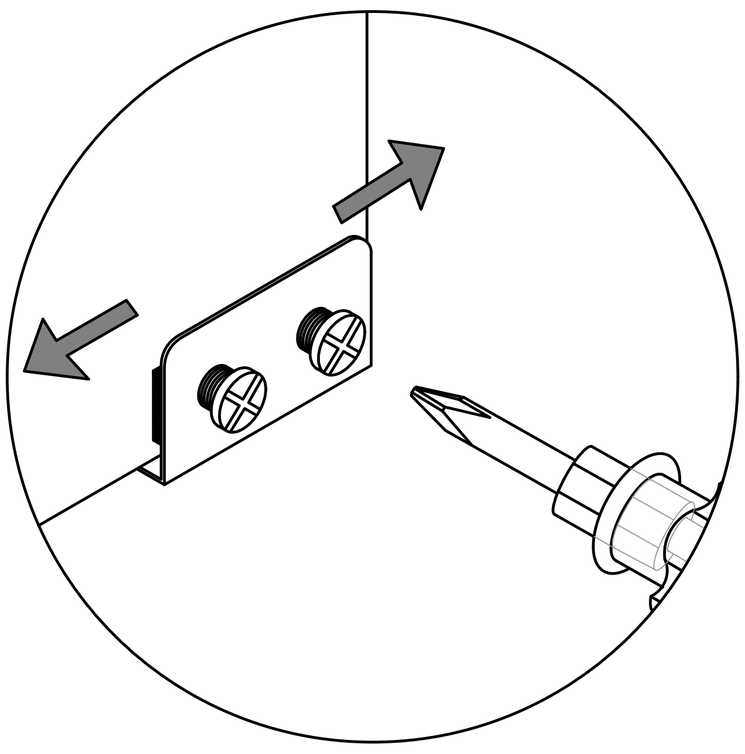

Locking screw

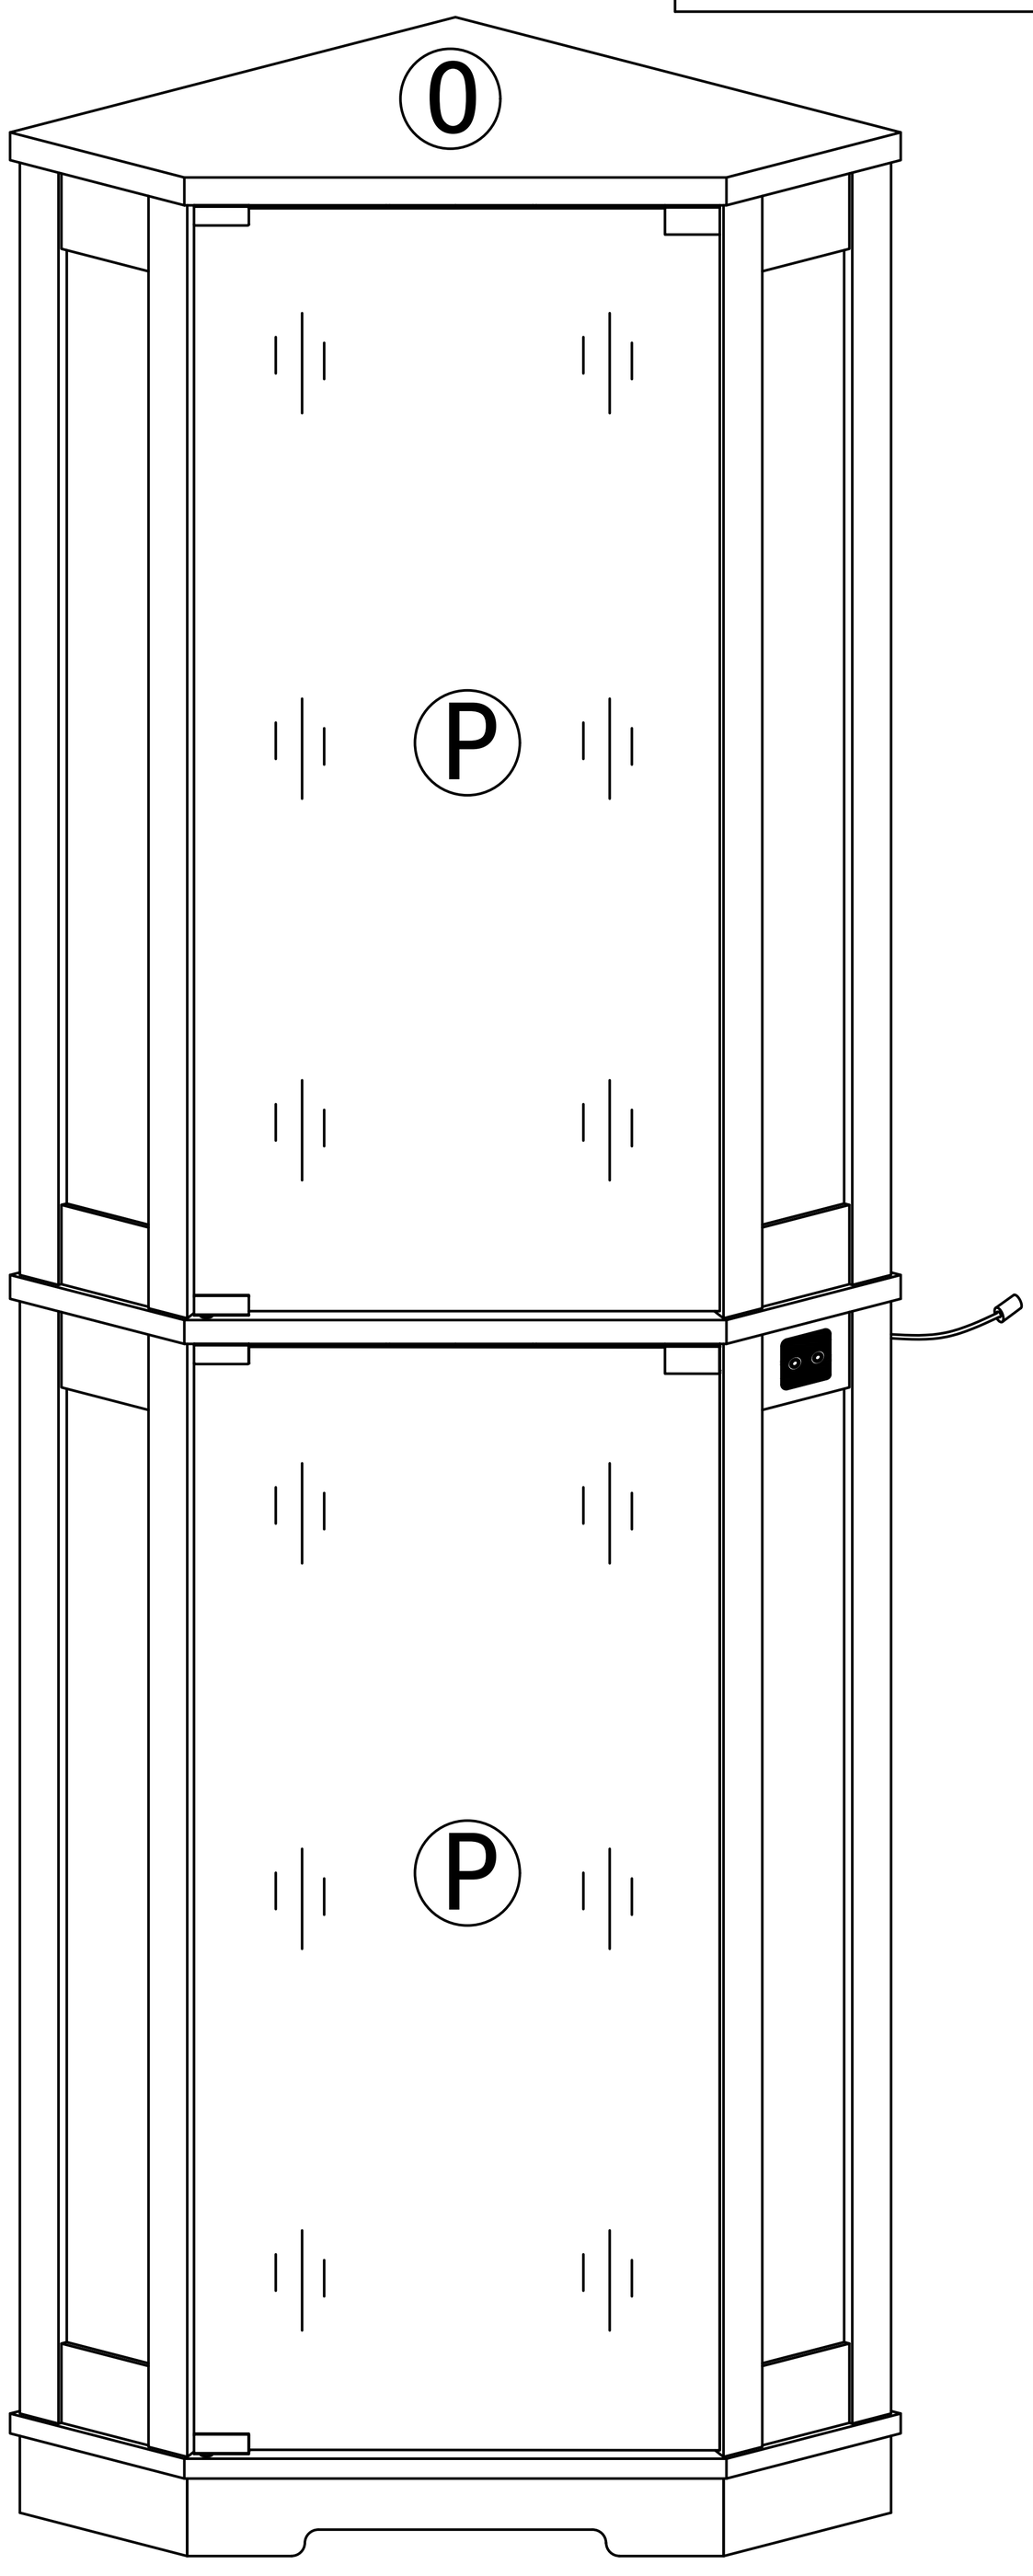

Step 33

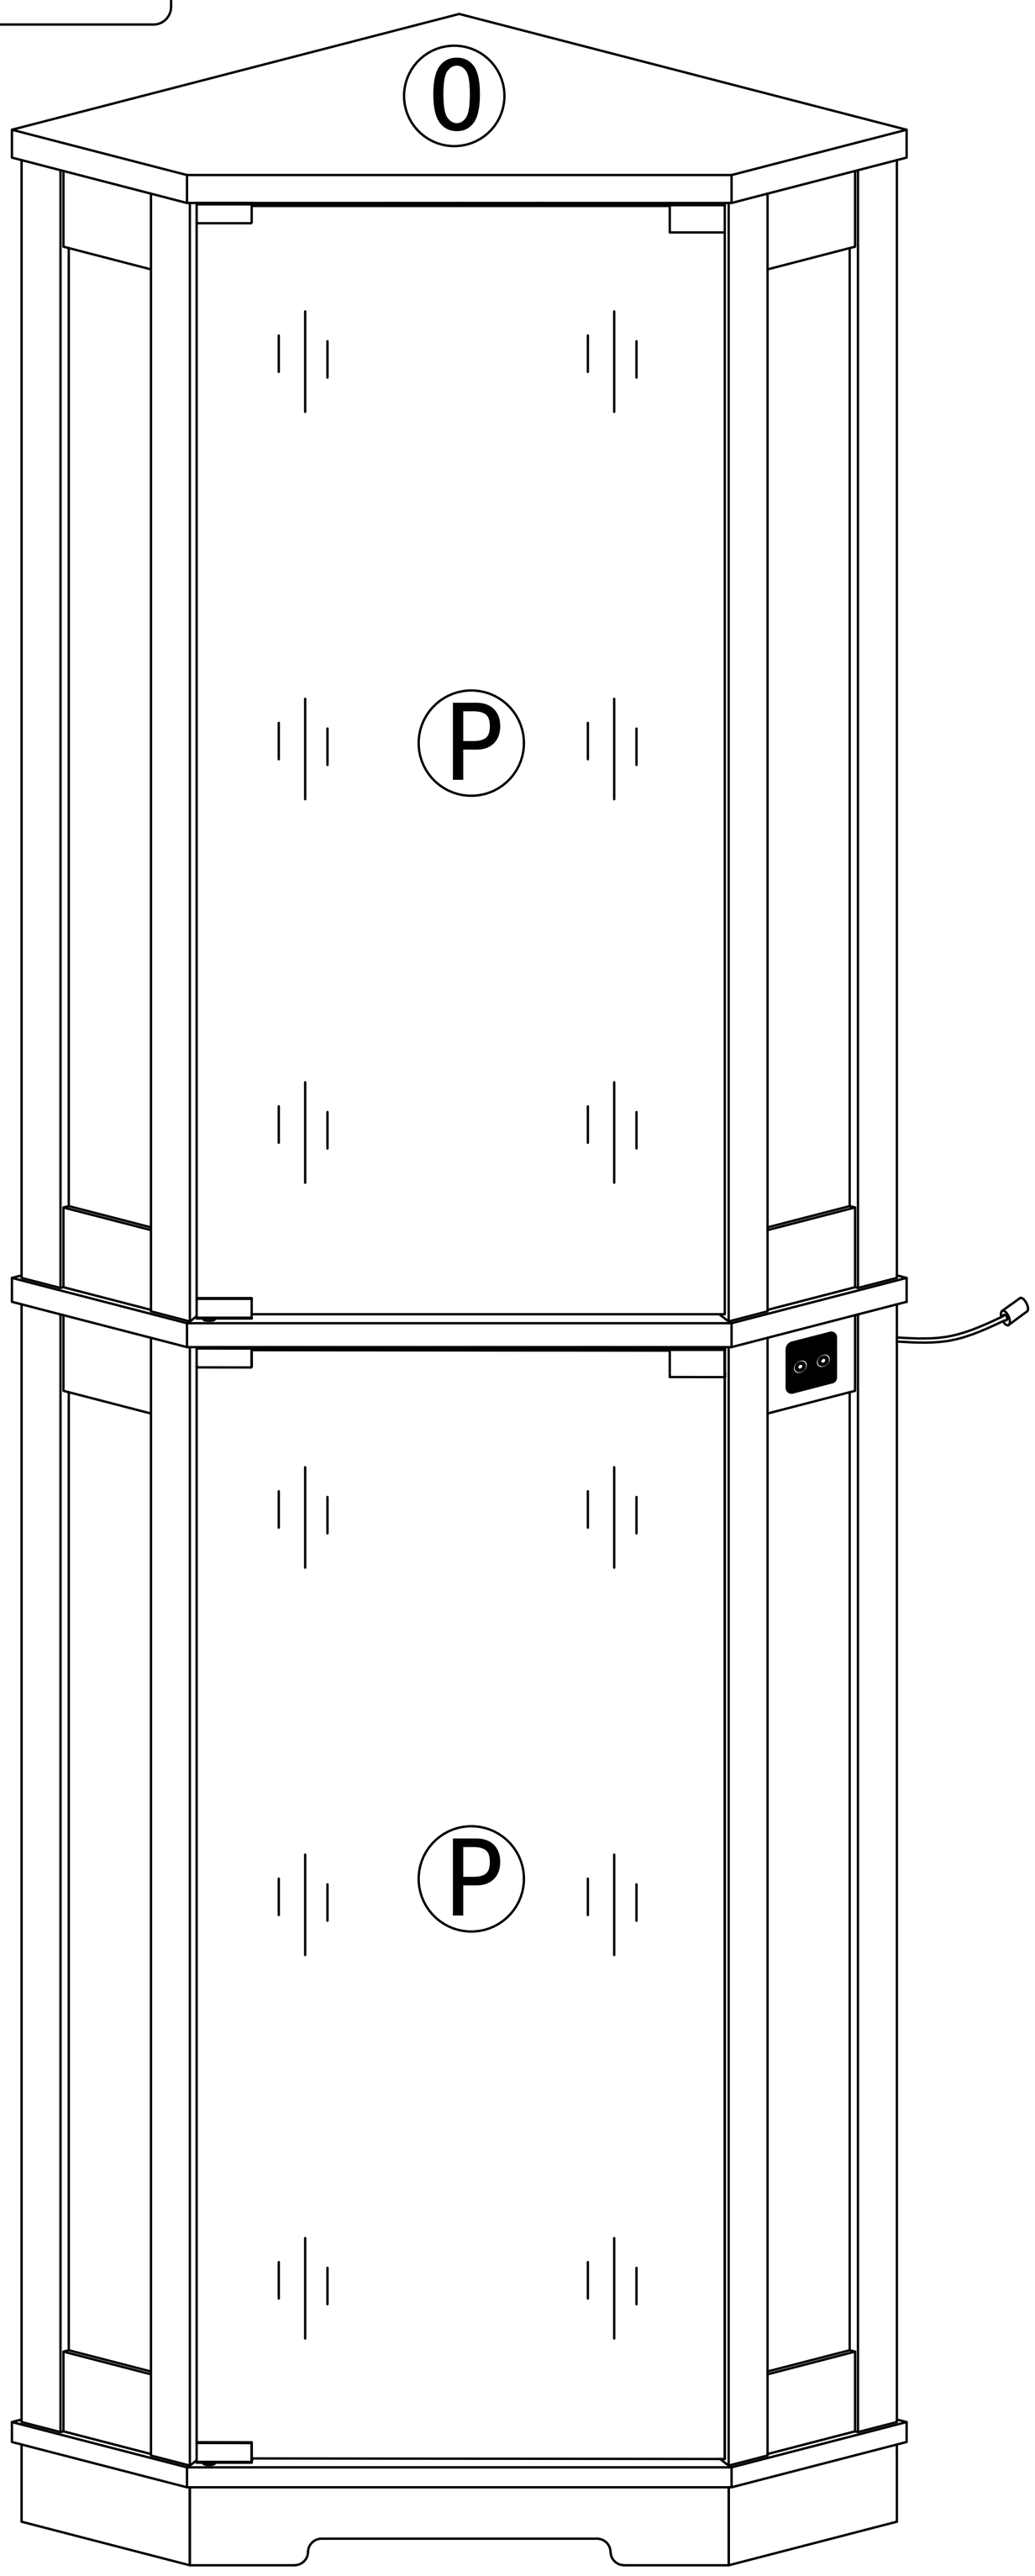

Note: after installing the glass door, it is found that there is a scraper on the side. You can loosen the No.7 screw and adjust the glass door left and right to solve the scraping problem.

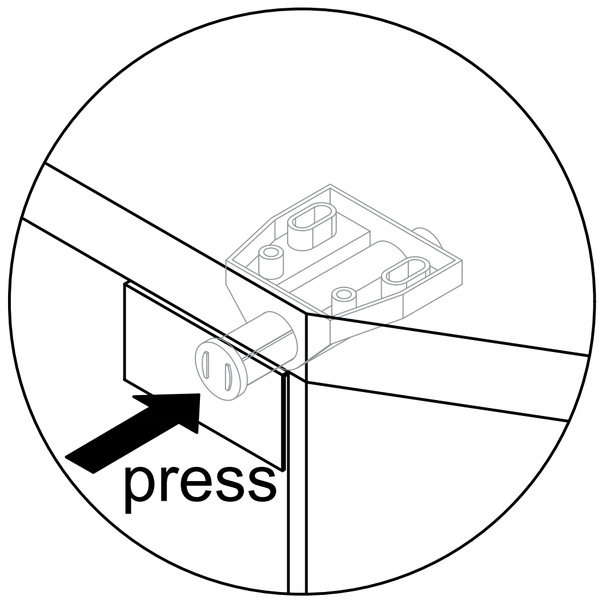

Repeat the door installation steps.

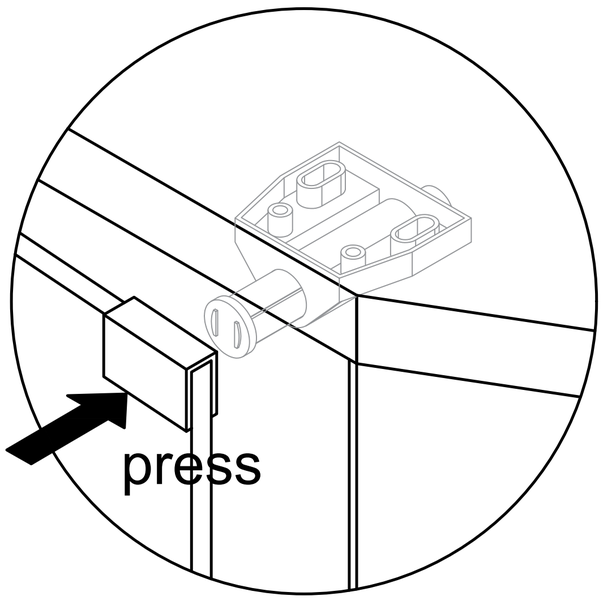

Step 34

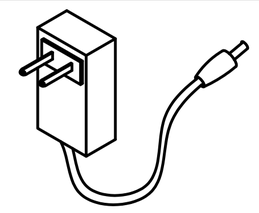

Open the glass door

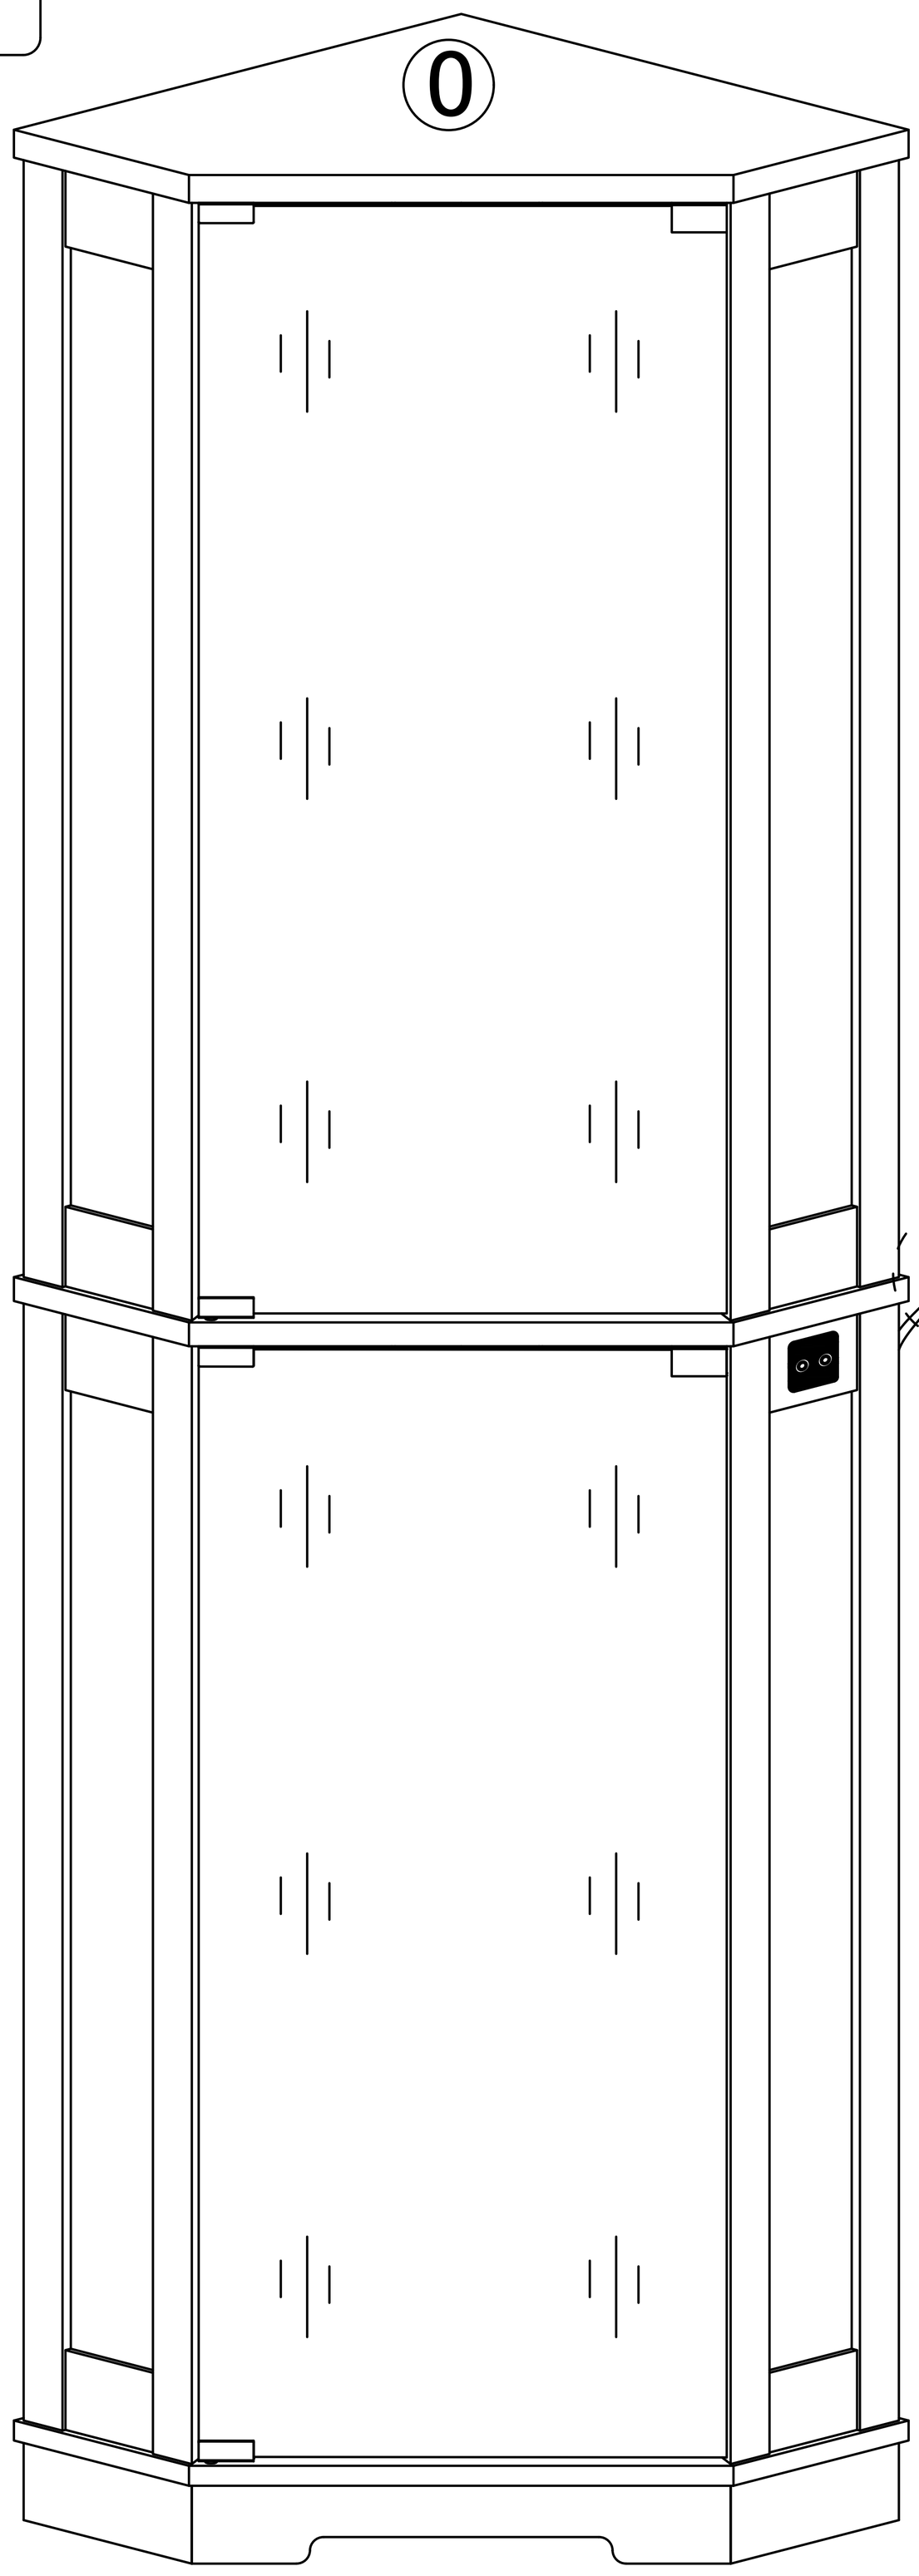

Close the glass door

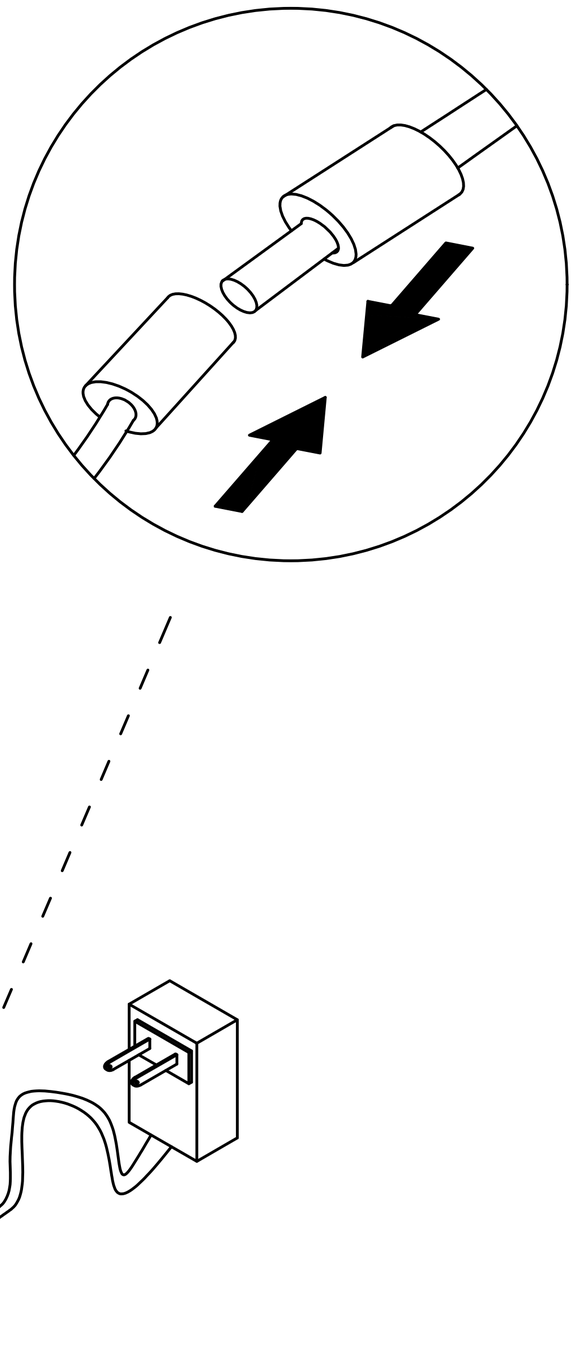

Step 35

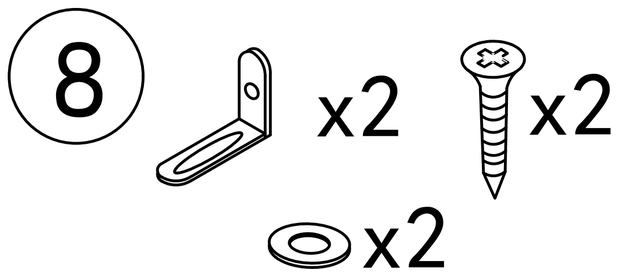

x1

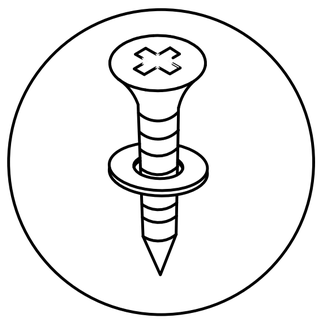

Step 36

Install as required

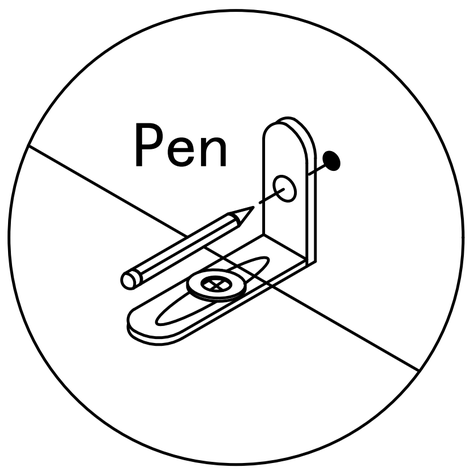

3.5x14mm

Install the anti fall hardware on the cabinet as shown in the picture first

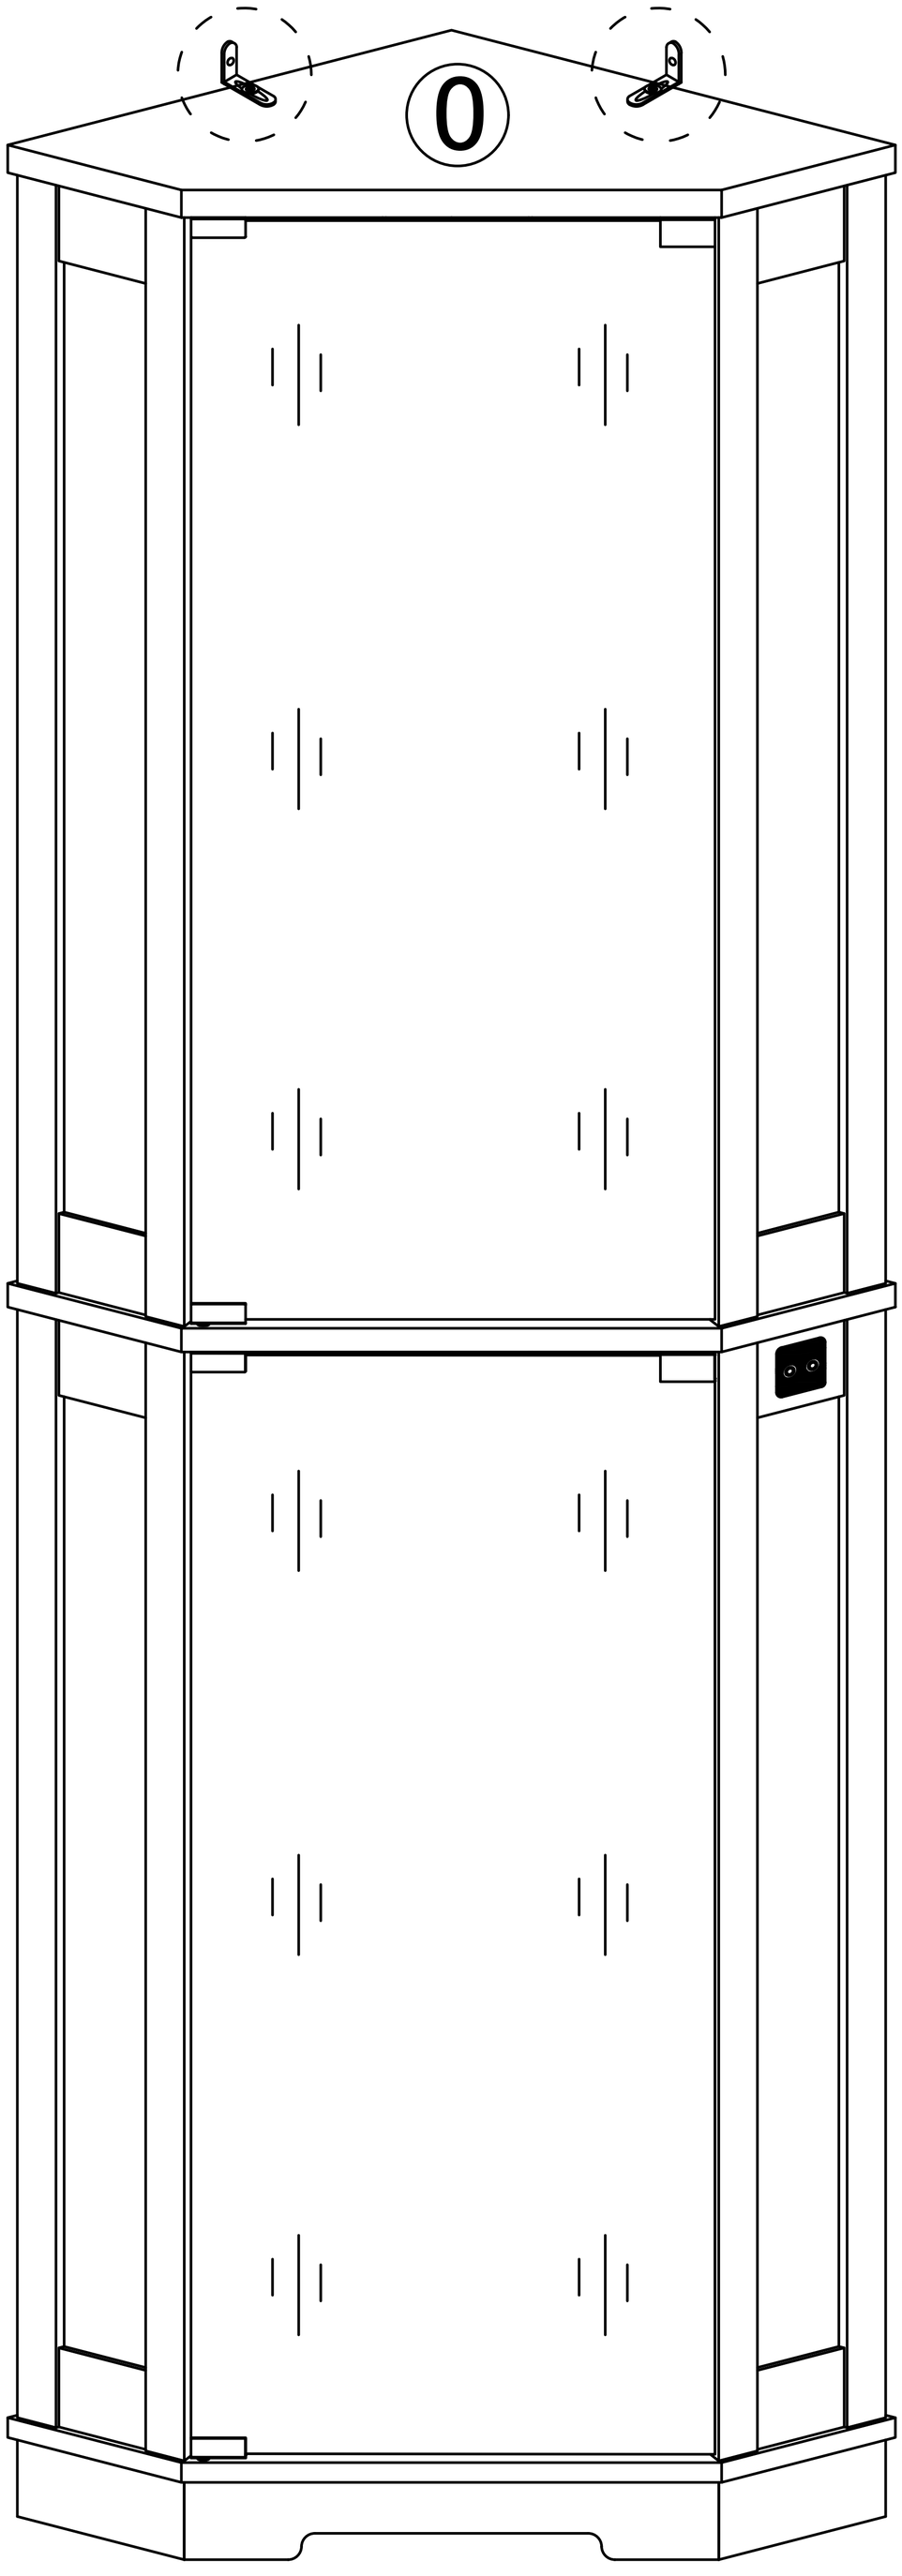

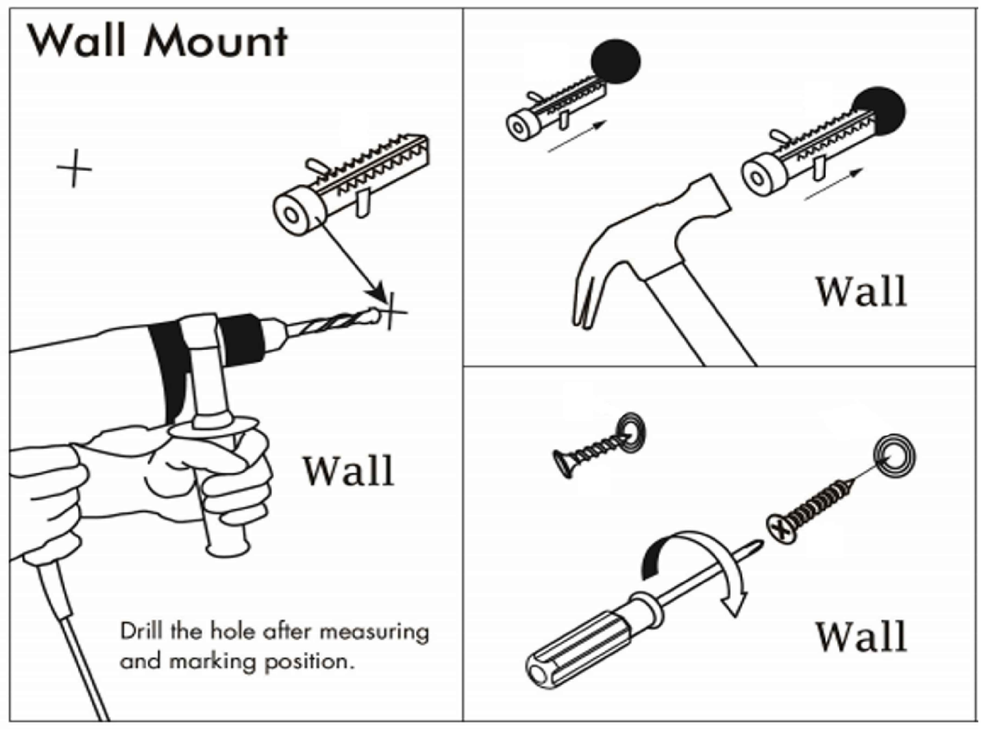

Then mark the wall with a pen through the holes in the anti-fall hardware

Step 37

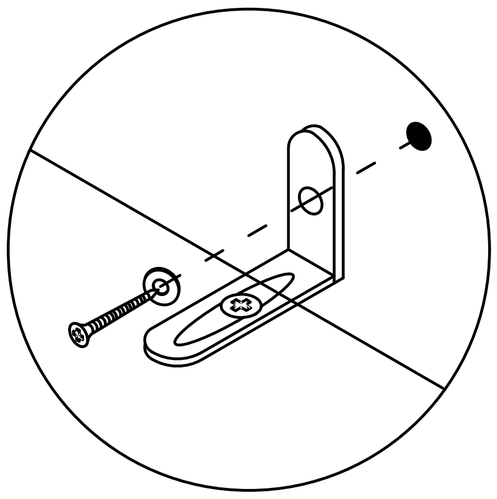

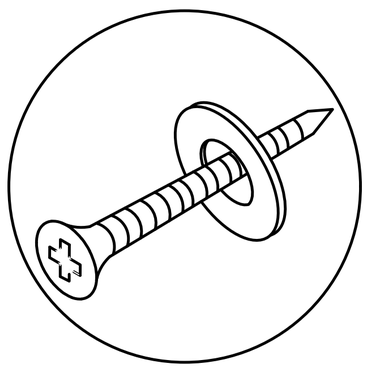

8 x2

x2 x2

Drill the hole with an electric drill and punch in the colloidal particles

4x45mm

Fix the dressing table to the wall

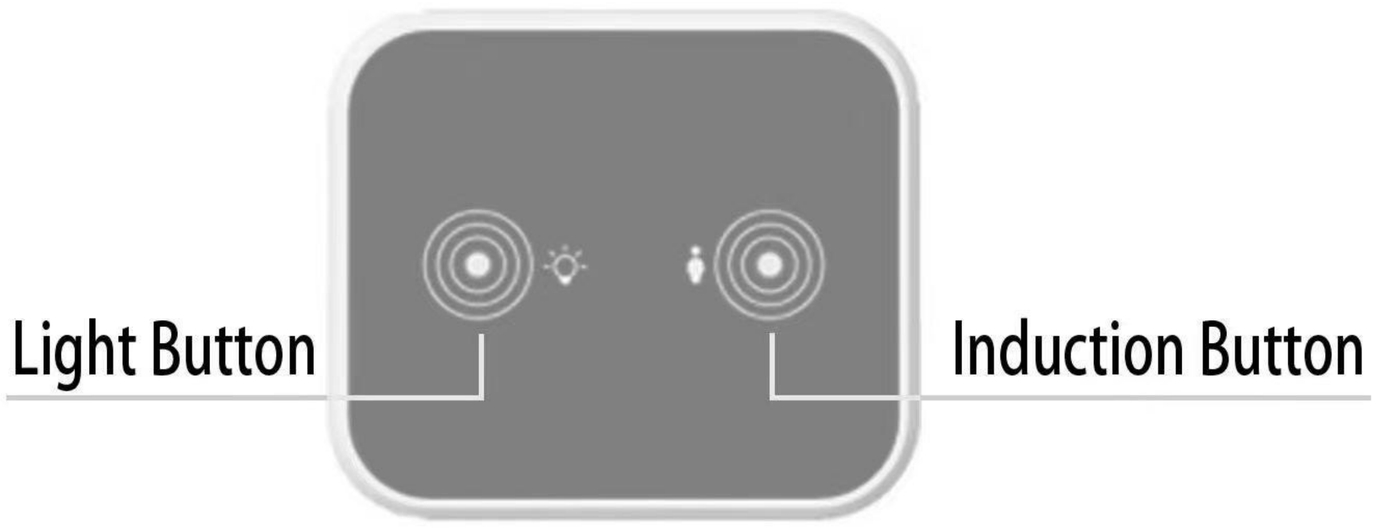

User's Guide

Thank you for purchasing this product. To use this product, please plug it into a 12V DC power supply. Please use if the product works normally after connecting to power.

Introduction

The box is an intelligent controller with 2 touch buttons. It can turn ON/OFF the light, change light colors, and adjust the light luminance.

Product Show

ATTENTION PLEASE

1. If there is no touch response suddenly, Re-plug the power to reset the touch static electricity.
2. If bubbles appear on the panel, remove the protective film.

Operation

This touch button is used to turn on/off, change colors, and adjust brightness.

A. Short touch -> lighting on -> short touch -> change light color -> short touch -> change light color -> short touch -> lighting off. **B**. Long touch -> adjust the luminance

This touch button is used to turn on/off the induction function.

A. Short touch to turn on the induction function. It can auto-turn on the light when people are close to the controller in 1 meters. It can auto power off the light when the body is far away from the controller after 30 seconds.

B. Long touch to turn off the induction function.

C. Note: When you touch the light button to change the light modes, the induction function will automatically turn off. It is best to turn on this function after selecting the light color and adjusting the brightness you want.
