3

Connect the back panels (I&J) to each other by inserting the tenons into the grooves. Attach the back panels (I&J) to the top rail (F) and the middle rail (G) with the Screws (HW8). Align the screw hole on the Hook (K) to the screw holes on the back panels (I&J). Place the Flat washers (HW4) onto the Bolts (HW5). Screw in the bolts (HW4) to attach the back panels.

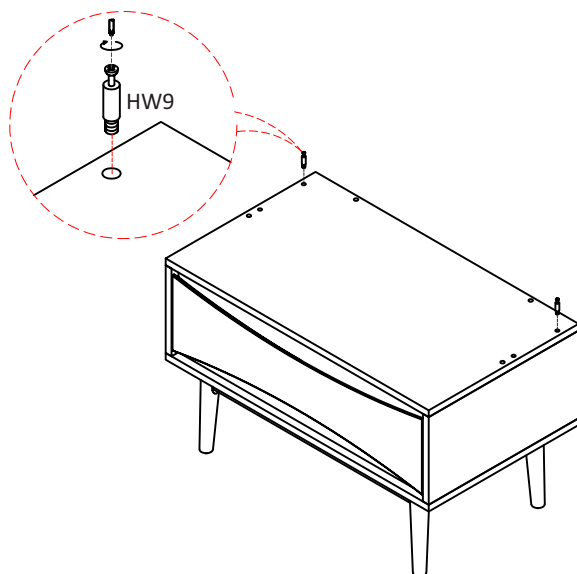

4

Place the base (A) on its side on a soft surface. Put the flat washer (HW6) and spring washer (HW7) on the Bolt (HW1). Attach the legs (B) to the base (A) by using the Allen key (HW13) to screw in the bolts (HW1) with the washers.
