*Please take a few minutes to review this guide.
Pay special attention to the care and cleaning instructions.*

The Basics...

- 1st: Always test your cleaning products on an inconspicuous area **before** applying them the entire surface.
- 2nd: Wipe all surfaces clean and **rinse completely** with water immediately after applying cleaning solutions to avoid any unintended damage. Rinse off and dry any spray that lands on surrounding surfaces. **Do not allow cleaners to soak or sit on surfaces.**
- 3rd Use a soft, dampened sponge or cloth for cleaning. **Never** use an abrasive material like brushes or scouring pads to clean surfaces to avoid scratching.

Clean & Care Like a Pro...

- ❖ Rinsing is key! Thoroughly rinsing and wiping your TERRAlife sink dry with a soft cloth after each use will keep it in top condition.
- ❖ When necessary, soft abrasive cleaners may be used for a deeper clean of your TERRAlife sink. Keep in mind, strong abrasive cleaners will scratch and dull the surface and should not be used.
- ❖ Do not store open containers of cleaners or chemicals such as acids, bleach, sodium chloride, lye, toilet bowl cleaner, drain cleaner, or hard water stain removal products under your sink.

Success with cleaners and procedures can be affected by water hardness and temperature, usage amounts, ingredient changes and the condition of the product being cleaned. As a result of these factors, TERRAlife can't guarantee the effectiveness of the following recommendations:

For General Cleaning

- ❖ Fantastik Antibacterial Heavy
- ❖ Duty Formula 409
- ❖ Antibacterial AllPurpose
- ❖ Green Works All-Purpose
- ❖ Soft Scrub Gel with Bleach

Care & Cleaning Tips for Chrome and Other Finish Metal Surfaces

- ❖ Do not use cleaners containing ammonia, bleach or acid.
- ❖ Rinse thoroughly and use a soft cloth to wipe the product dry after each use.

These care and cleaning tips for chrome and other metal finishes refer to products provided by TERRAlife (such as our sink drains and strainers) only.

Success with cleaners and procedures can be affected by water hardness and temperature, usage amounts, ingredient changes and the condition of the product being cleaned. As a result of these factors, TERRAlife can't guarantee the effectiveness of the following products listed below.

Fireclay, granite and metal finishes always look their best when any water is blotted dry from the surface--allowing it to air dry may leave water deposits and spots depending on the mineral deposits found in your water. We recommend using a damp sponge for cleaning and a gentle cloth for the buff drying to keep your TERRAlife sink looking beautiful.

Products to Consider for metals

- ❖ Bar Keepers Friend
- ❖ Clorox Disinfecting Kitchen Cleaner
- ❖ Fantastik Antibacterial
- ❖ Heavy Duty Green Works All-Purpose
- ❖ Green Works Glass Cleaner
- ❖ Windex Original
