 K x40 +1(spare) M5	 L x1	 M x1	 N x1

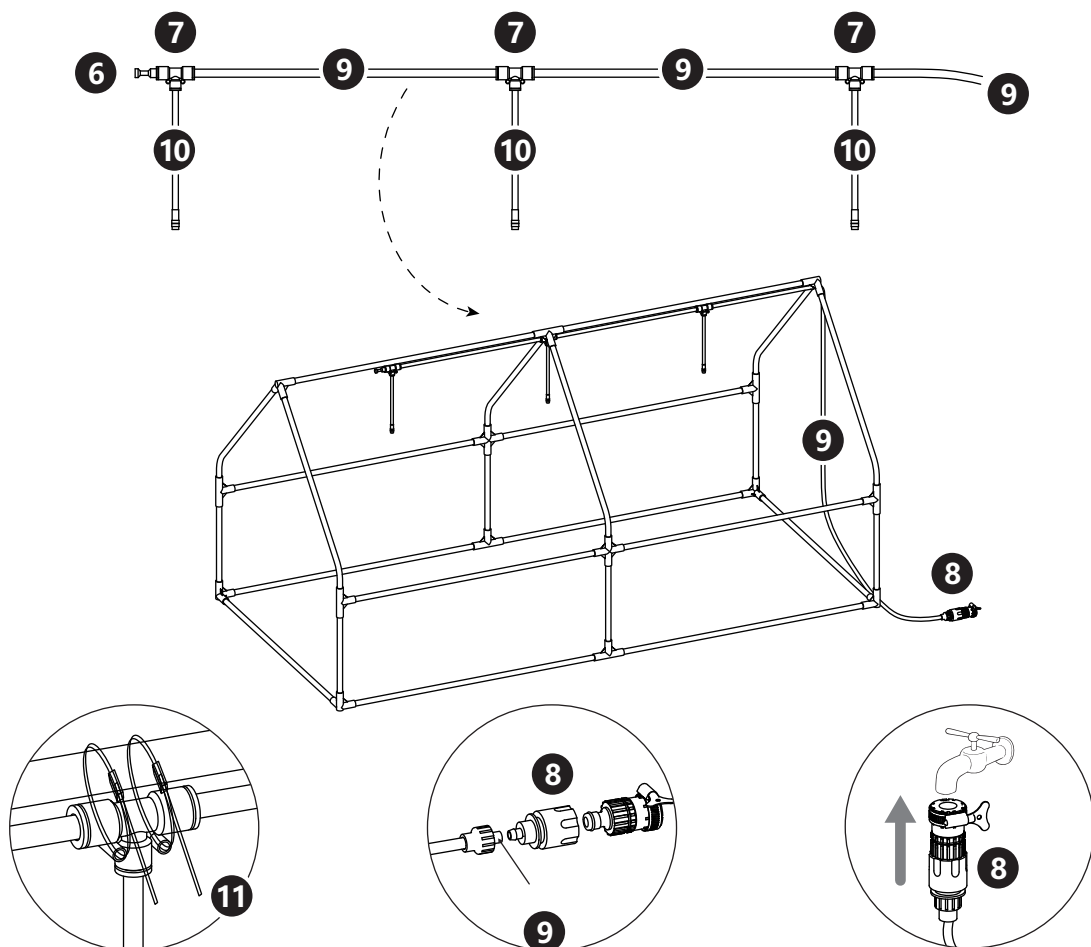

Step1:

Assemble the complete shelf according to the markings on the diagram.

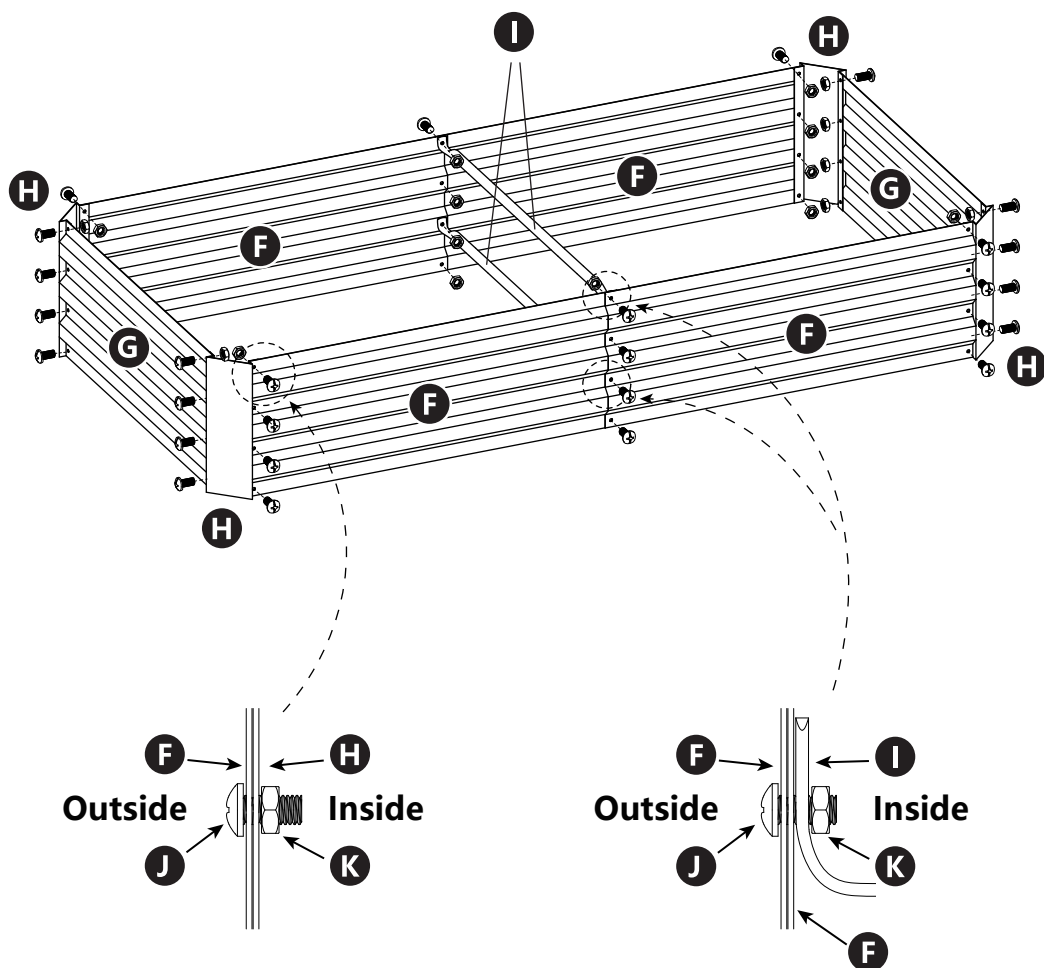

Step2:

Cut the part 9 to the appropriate length, properly install the irrigation system, and secure it tightly with cable ties

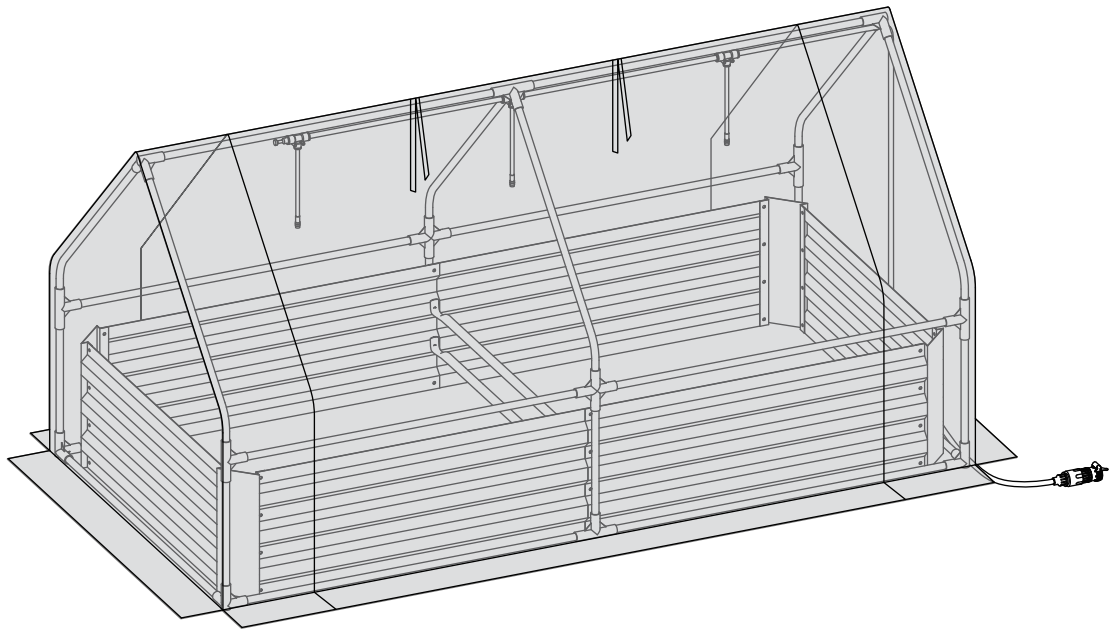

Step3:

- 【1】 : Attach two part H brackets to one part G end panel with part-J screws, and secure with part- K nuts. Repeat to assemble the other end.
- 【2】 : Attach two part F side panels to two-part H bracket assemblies with part-J screws, and secure with part- K nuts. Repeat to assemble the other end.
- 【3】 : Repeat the above 2 steps to assemble the other half of the Galvanized Raised Garden Bed.
- 【4】 : Attach the two-part I bracing rods with part-J screws and part-K nuts.

Step4:

Carefully place the greenhouse over the garden bed. Then carefully slide the cover over the constructed frame. And tie it to the iron pipe with the rope that came with the shed.

Tips

- *If you have any questions about installing the product, you can email us and we will provide you with a video.
- *If the panels are bent or distorted during transportation, they can be restored to their original shape by tapping with a rubber mallet.
