

# USER MANUAL

Our solar fairy lights are not only long and flexible but also waterproof, decorating your bedroom, patio, garden party, wedding, home, window, bathroom, as well as shows, restaurant, hotel, yard, patios, commercial building, shopping center etc or whatever you want with these sparkling and magical waterproof solar fairy lights.

## HOW to use it ?

1. remove the transparent protective film on the solar panel
2. cover the solar panel completely, press the ON/OFF button, the ON mode is the lighted state. Note: The solar panel can only be charged in ON mode.
3. find a place you want to decorate, make sure the solar panel is in a sunny place and the solar panel is facing the sun, so that this place has no bright light source at night;
4. soak the ground with water and insert the ground stakes into the ground. Adjust the solar panel so that it faces the sun, tighten the screws and the solar light chain will switch on automatically at night and switch off again at sunrise.

Any questions, pls contact us in time by the amazon. Thank you !
