assembly instructions

Friendly Tip: Take a deep breath going in. This may be a tricky part, but nothing too overwhelming. Just follow these steps to the T and the outcome will be worth it!

- ⓘ While assembling the product, tighten the bolts up to 50%. Once all parts are in place, only then fully tighten the bolts.

step 1:

Start by sticking the bumpons (C) on all the slots given on four corners inside the cabinet. Use the image below as a reference.

step 2:

When done, take the glass shelves (B) and place them over the bumpons. Ensure they are fixed properly.

Voila! Your cabinet is now assembled and secure!
