H6: Cross Plate (1)

T1: Wrench(1)

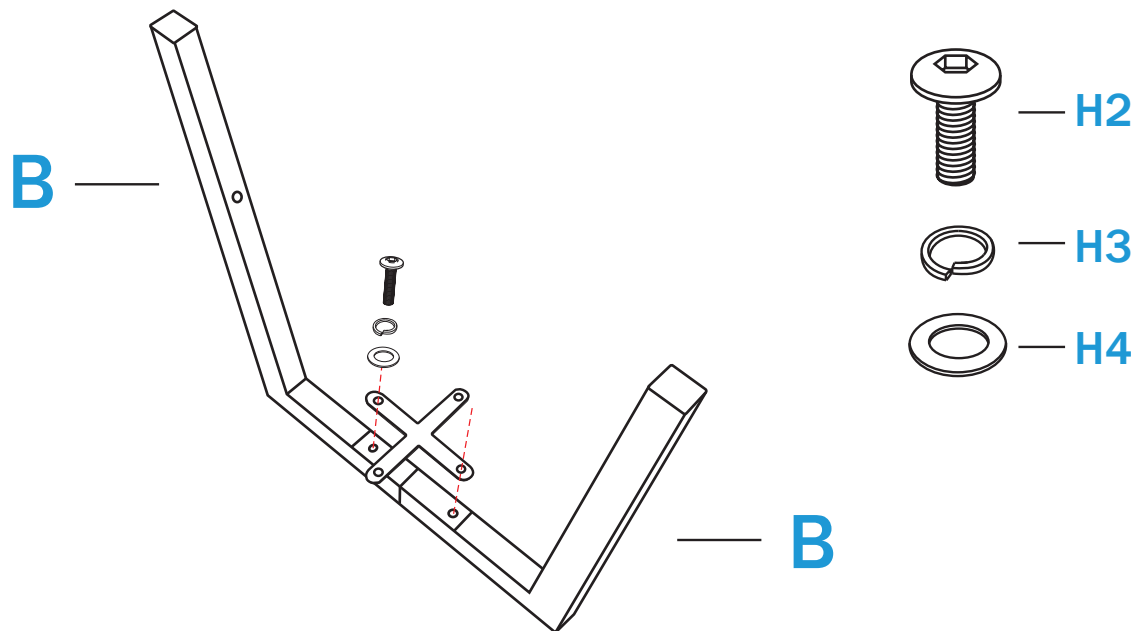

Instruction Manual

Please read through the instructions below to familiarize yourself with the parts and steps before assembly.

STEP 1

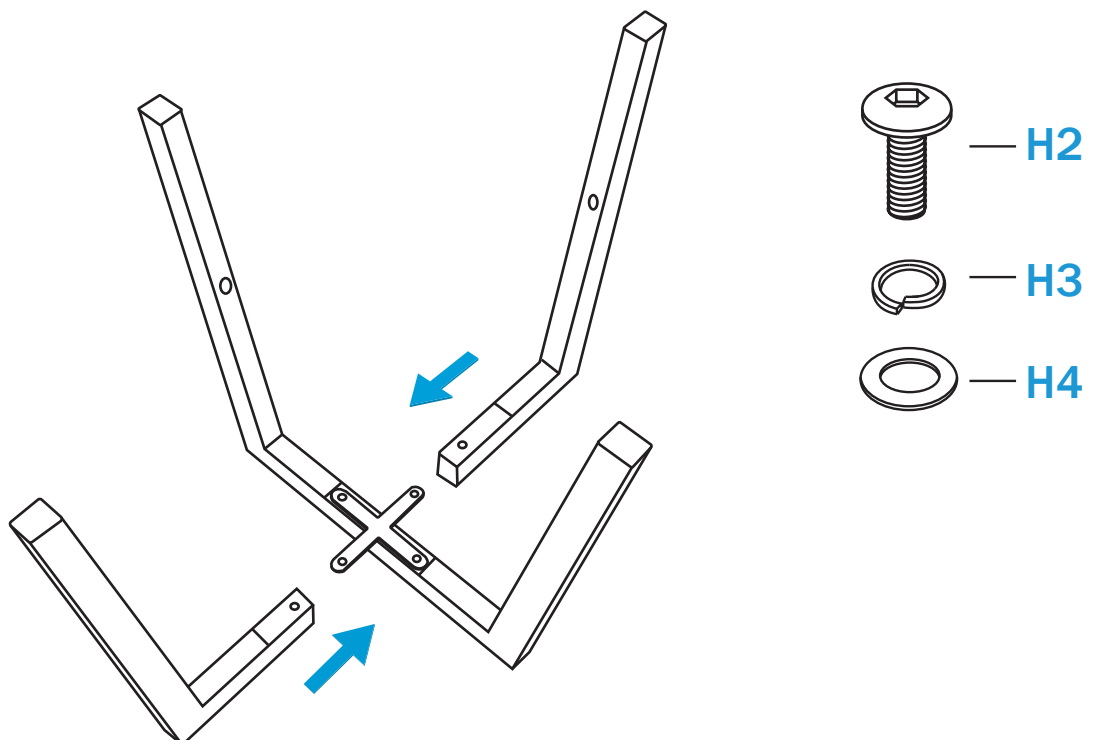

Connect tow legs(B) with Cross Plate(H6) by bolts(H2) as shown in the figure.

NOTE: Do not tighten the bolts fully before all legs connected.

STEP 2

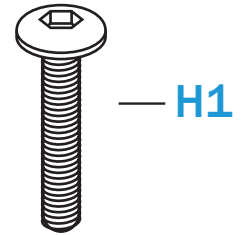

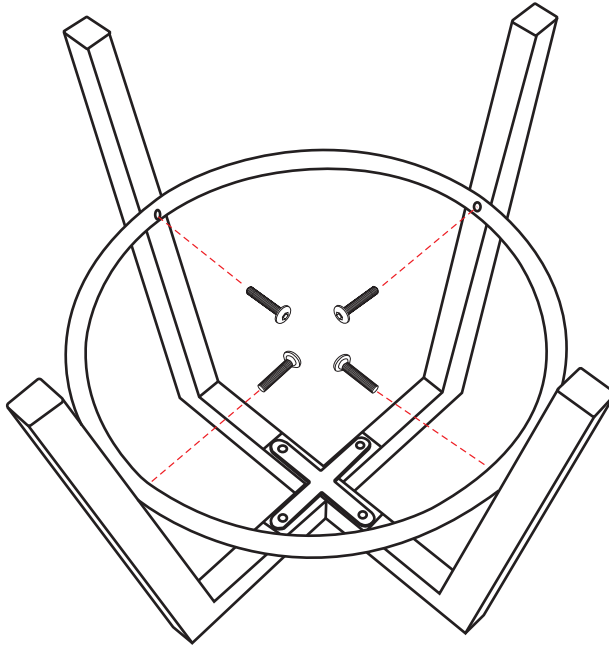

Attach the other two legs(A) by bolts(H2). Tighten all the bolts after ensuring that each bolts hole can be installed correctly.

Instruction Manual III

STEP 3

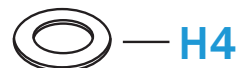

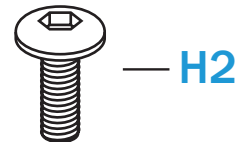

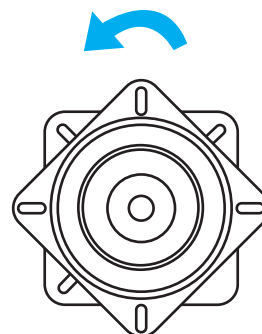

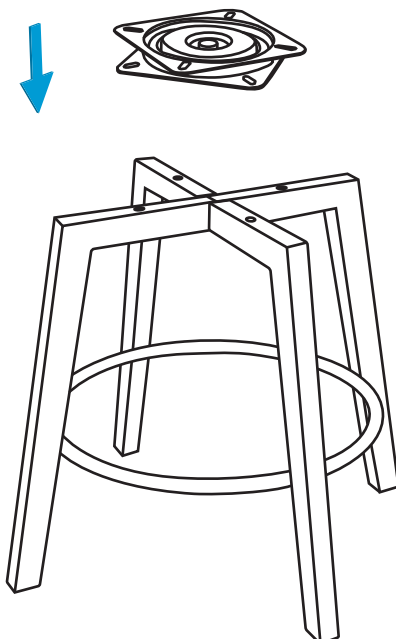

Attach the Foot rest(D) on legs by bolts(H1) as shown in the figure. Tighten all the bolts after ensuring that each bolts hole can be installed correctly.

STEP 4

Align the installed part, and then attach Swivel Plate(E) on it by bolts(H2) as shown in the figure. Tighten all the bolts after ensuring that each bolts hole can be installed correctly.

NOTE: Adjust Swivel Plate to the state shown in the figure before you start.

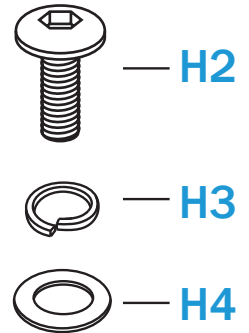

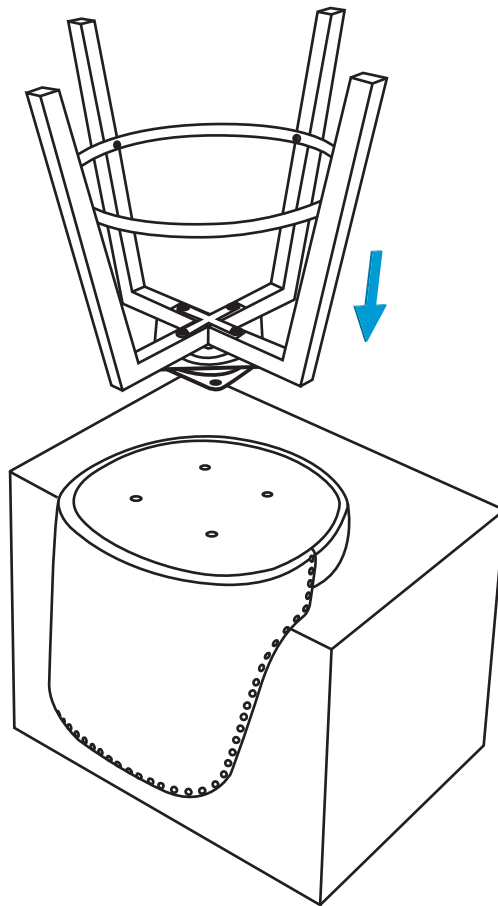

Instruction Manual III

STEP 5

Attach the installed part on seat(C) as shown in the figure.
Tighten all the bolts after ensuring that each bolts hole can be installed correctly.

NOTE: A box will make it easier for you.

STEP 6

Attach the foot levelers(H5) to the leg(A) and leg(B).
