

Wall

GENERAL PRODUCT INFORMATION:

These fixtures are intended to be installed utilizing NEC compliant junction boxes.

This product is suitable for damp locations.

This product can be dimmed with a low voltage electronic dimmer.

This instruction shows a typical installation.

CAUTION - RISK OF FIRE

This product must be installed in accordance with the applicable installation code by a person familiar with the construction and operation of the product and the hazards involved.

Use minimum 90°C supply conductors.

Install the Fixture

- 1** Remove the fixture screws located on the top and bottom of the fixture base using the provided Allen wrench, then remove the mounting plate from the fixture base.
- 2** Install the mounting plate onto the electrical box with the two #8-32 screws provided.
- 3** Connect the fixture to suitable ground in accordance with local electrical codes.
- 4** Connect the white fixture wire to the neutral power line wire with a wire nut.
- 5** Connect the black fixture wire to the hot power line wire with a wire nut.
- 6** Properly place all wires and wire nut connections into the electrical box, mount the fixture back onto the mounting plate, and reinstall fixture screws (reversal of step 1).
