RACK ASSEMBLY

- 1) Place the **arched upright** on a flat surface with the two bends, which form the two front leg supports, pointing down.
- 2) Attach the two **back leg supports** to the arched upright opposite the front leg supports using the **1/2" button head screws**. Insert the **button head screws** through the front of the **arched upright** and into the **back leg supports** using the **hex key wrench** supplied.
- 4) **Note:** The screw holes in the **back leg supports** are threaded so they must receive the **button head screws** last.
