x4

(C)- Wall Plug
x4

Installation instructions

o Helpful Tips : This is straightforward, even if you're not experienced with tools. Just follow the 5 steps, and you'll see great results.

Step 1:

Determine the distance between the two sawtooth by using a measuring tool.

Step 2:

Create holes at the locations you marked previously using a drill.

Step 3

Tap the wall plugs into the holes using a hammer.

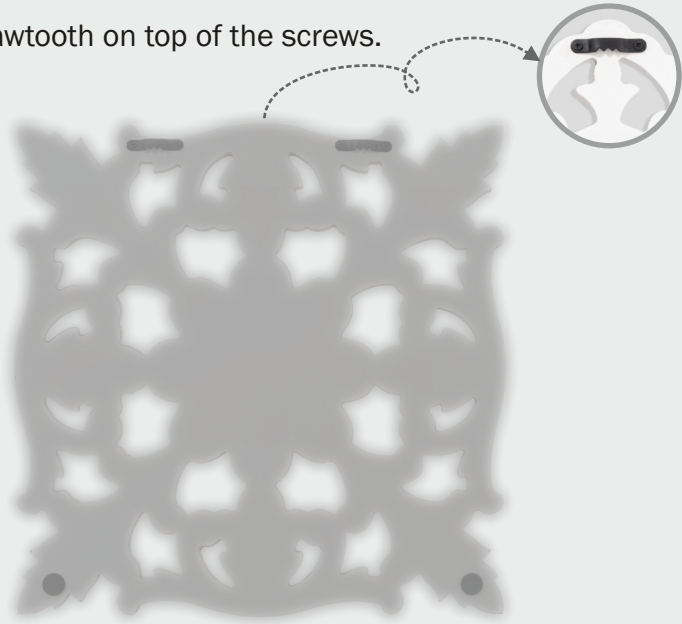

Step 4:

Fasten the screws into the wall plugs and use a screwdriver to ensure they are tightly secured.

Step 5:

Position both the sawtooth on top of the screws.

“ There you go! Your medallion has been installed and is now firmly secured! ”
