

Pumpkin Car Double-Layer Cat House Installation Instructions

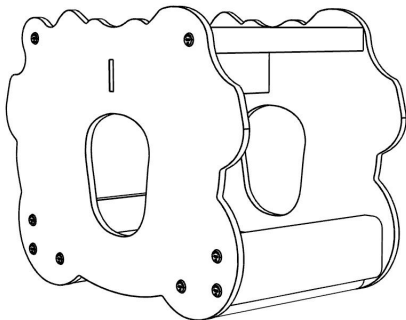

Step 1

Take Panel 1, Roller 1, and Roller 2. As shown in the image, use plastic screws to attach Roller 1 and the two Roller 2 pieces to the inner side of Panel 1. (Note: The groove at the bottom of Roller 1 should align with the corresponding slot in the panel. The panel's side with the pattern faces forward.)

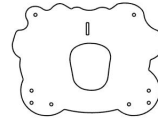

Step 2

Take Panel 2 and Roller 3. As shown, insert Panel 2 into the hole in Panel 1, then insert Roller 3 into Panel 2. Use plastic screws to secure Roller 3 and Panel 2 in place.

Step 3

Repeat Steps 1 and 2 to install the other Panel 1 on the opposite side. (Note: Ensure the patterns on both Panel 1 pieces face the same direction.)

Panel 1 × 2 PCS

Panel 2 × 1 PC

Panel 3 × 1 PC

Panel 4 × 1 PC

Roller 1 × 1 PC

Roller 2 × 2 PCS

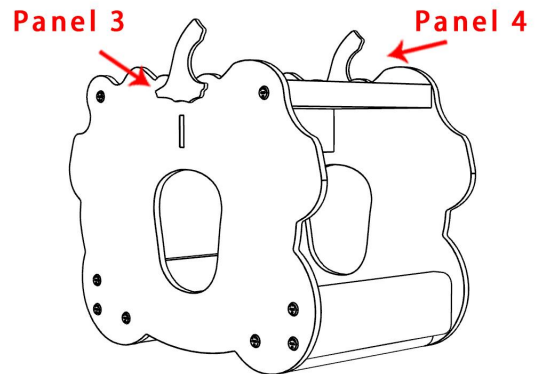

Roller 3 × 1 PC

Plastic Screws × 16 PCS

Parts List

Step 4

Take Panel 3 and Panel 4. Peel off the adhesive backing, then attach Panel 3 to the top of the assembled cat house, aligning it with the holes in Panel 1. Finally, attach Panel 4 to the back side of the cat house to complete the installation.
