Machine Washable For Easy Care

Evenly Distributed Weight For Gentle Comfort

Sleep Better Naturally

Cooling Tip: Due to its weight, the blanket may feel warm. We recommend using a fan or air conditioner in warmer environments.

CARE INSTRUCTIONS:

30
Commercial Machine Wash

Tumble Dry Low

Do Not Bleach

Do Not Iron

Useful Tip: For minor stains, we recommend spot cleaning. To extend the lifespan of your heavy weighted blanket and avoid frequent machine washing, we highly recommend using it with a removable duvet cover and washing the cover instead.

⚠ WARNING:

- **DO NOT** use on children under 8 years old.
- **DO NOT** cover the user's face or head with the blanket to avoid risk of suffocation.
- **DO NOT** use on anyone who cannot lift or remove the blanket themselves.
- **DO NOT** puncture the blanket. If the blanket becomes torn, damaged, or leaks beads, dispose of it immediately. (Contains small parts. Adult supervision required.)
- Consult your physician before use for the recommended blanket weight and duration, especially if you have pre-existing medical conditions.

IMPORTANT TIPS & EXPECTATIONS:

- **Sizing:** A weighted blanket is designed to cover your body, not your entire bed, so it will be smaller than ordinary blankets. Your feet may naturally stick out.
- **Adjustment Period:** It typically takes 2–7 days to get fully used to the feel of a weighted blanket.
- **Shared Use:** If sharing a bed with a partner whose body weight differs significantly from yours (over 100 lbs difference), we strongly recommend using two separate weighted blankets.
