Base Type: E12 Base

Light Source Included: NO

Voltage: 120VAC

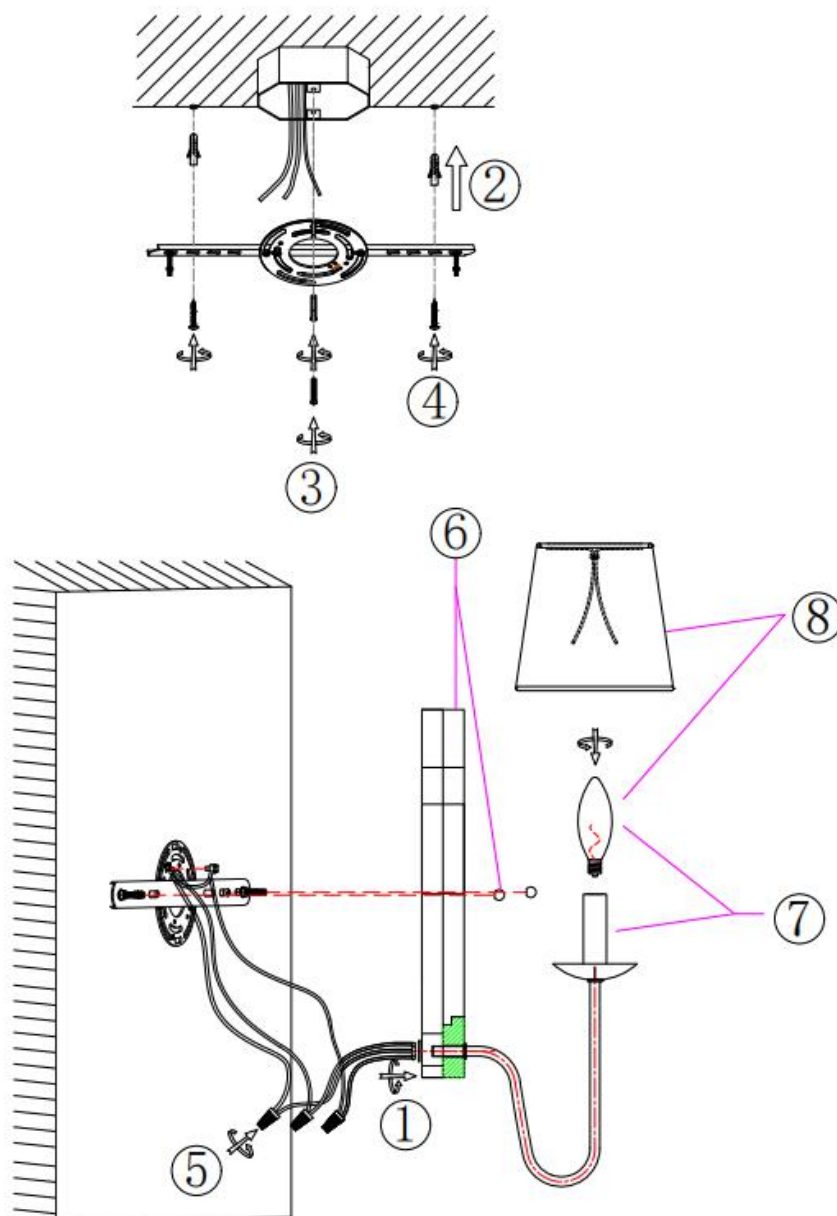

Wattage: 40W

Package includes

1 x Wall Light

1 x Accessories Kit

1 x User's Manual

Installation Instructions

1. Insert the elbow fixture arm into the wooden frame, then tighten it securely with the nut and washer.
2. Drill two holes in the wall at the designated positions, then insert the plastic wall plugs into the holes.
3. Use screws to securely attach the mounting plate to the junction box.
4. Reinforce the mounting plate with self-tapping screws to ensure a stable installation.
5. Connect the fixture wires — neutral, live, and ground — to the corresponding wires in the junction box using wire nuts. Insulate all connections with electrical tape, then neatly tuck the wires into the junction box.
6. Secure the wooden frame onto the mounting plate using flat caps for a firm hold.
7. Install the light bulb (not included) into the lamp holder as indicated.
8. Fit the lampshade onto the lamp socket and ensure it is securely in place.

Note: please use this product accordingly to its intended purpose, do not retrofit or remodeling the product. The warranty does not cover if the failure is caused by the third party product, or natural disasters.
