How to Assemble the Greenhouse 12

Please prepare below tools before installation.

The following tools are not included and needed for assembly:

Pistol Drill

Tape Measure

Ladder

Package included Tools:

Screw Driver

Gloves

Warning

We recommend two adults to complete the installation. Two adults installed together will make the installation process easier and safer.

The gloves must be carried to prevent hand cuts during installation. Take care when using power tools near water the use of a residual current device(RCD) is advised. Please use the electric driver carefully during screwing to prevent the screw from slipping and hurting your hand.

We recommend that beginners use a manual screwdriver for installation.

Be careful not to fall when installing the roof. Please steady the ladder and make sure the product placed on a flat ground.

Installation Notes

Please check the quantity of all parts before installation (Please refer to the Part List) and the appearance of the products. Please make sure the product is correct before installation. If there is any problem, please contact us directly.

Make sure all the holes match. Please install the panels in the order specified in the instructions. All lines and holes must be accurately matched to make the PC Outdoor Greenhouse more stable. Please ensure that all screws are tightened to prevent the product from falling apart.

There is a protective film on the surface to protect the product, please tear it off after installation to get the final presentation.

Please place the product on a flat ground to prevent leaning and collapse. If the ground is uneven, the door may can't be closed.

Attention:

Please read this instruction carefully before installation and follow it strictly during installation.

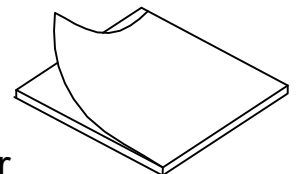

Ensure that there are no problems later due to installation errors.

UV-Label side to be installed outside;

Film on both sides to be peeled off before installation.

Note: For the side with the label, only peel off the four edges of the film before installation.

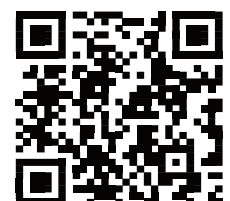

The center section with the label should be peeled off after installation is complete to prevent installation errors caused by the label being obscured.
