SAFETY INFORMATION

CAUTION

Please carefully read the following important safety information before handling or installing this shower. There is a risk of serious injury while handling this product.

To minimize these risks, please note:

- Always wear safety glasses and gloves while handling.
- Always follow the installation instructions.
- Inspect glass for damage before installation.
- Extreme caution should be taken while handling the glass during installation as the tempered glass may shatter if in contact with a hard surface.
- Do not cut or modify the tempered glass as it will shatter if cut.
- Carefully remove product from packaging and keep packaging until installation is complete, and make sure that everything works satisfactorily.
- Inspect all parts for damage or missing; if there is damage or part missing to the unit prior to installation, please contact customer service at the number provided in this guide.
- Cover the drain with tape to prevent the loss of small parts.
- The shower base and finished walls should be installed before beginning the shower door installation.
- During the installation, protect the shower floor with a drop cloth to avoid damage.
- This product should be installed by two people who are familiar with construction requirements. Professional installation is recommended!
- Keep this installation manual for future reference.

NOTE: Two people should perform this installation.

1

Wall Jamb(B) Installation

NOTE

Confirm the **Wall Jamb(B)** is plumb with a level before marking the location of the holes for drilling.

NOTE

Wall jamb (B) must be in line with the Center of Threshold.

1-2

Wall Jamb(B) Installation

Fig.a

Fig.b

Fig.c

Fig.d

NOTE

1. Drill the holes as Fig.a and Fig.b;
2. Apply silicone into the groove along the entire length of the **Wall Jamb(B)** as Fig c;
3. Attach the **Wall Jamb(B)** to the wall as Fig d.

NOTE

- If a Stud is presented behind the wall: drill a Ø1/8" (3mm) pilot hole into the stud and use the ST4.0 x 30mm **Screws (bb)**
- OR
- If No Stud is presented behind the wall: drill a Ø1/4" (6mm) hole and insert the **Wall Anchors (aa)** and use the ST4.0 x 30mm **Screws (bb)**.

2

Stationary Glass (A) Installation

NOTE

- 1、 Apply silicone along the inside surface and around the holes of the **Wall Jamb (B)** as Fig.a;
- 2、 Insert the **Stationary Glass (A)** into **Wall Jamb (B)** as Fig.b and Fig.c .

3

Top Bar (C) Installation

NOTE

1. Use a level and position the **Top Bar (C)** onto the **Stationary Glass (A)** as shown and mark the position on the wall as Fig.a
2. Remove the **Top Bar (C)** and mark the holes for drilling as Fig.b;
3. Drill one $\text{Ø}5/16''$ (8mm) hole and insert the **Wall Anchor (cc)**. Attach the **Top Bar (D)** using **ST5 x 30 Screws (dd)** as Fig.c、 Fig.d and Fig.e;
4. Position the **Top Bar (C)** onto the **Stationary Glass (A)** and onto the wall as Fig.f

SEALING

NOTE

The surfaces need to be clean and free of debris before applying silicone.

NOTE

Apply a good quality silicone sealant along the wall Jamb(B) and Bottom Stationary Glass (A) .

Allow 24 hours for the silicone to cure before using the shower.

24 hour

Apply Silicone Sealant, (not supplied).
