After fixing the screws, there will be some exposed screw parts on the component. Please use the provided plastic protective covers to protect the exposed screw parts, to avoid scratches during use.

Nachdem die Schrauben befestigt sind, werden einige Schraubenteile am Bauteil sichtbar sein. Bitte verwenden Sie die bereitgestellten Kunststoffschutzabdeckungen, um die freiliegenden Schraubenteile zu schützen und Kratzer während der Benutzung zu vermeiden.

Après avoir fixé les vis, certaines parties des vis seront exposées sur le composant. Veuillez utiliser les protections en plastique fournies pour protéger les parties exposées des vis, afin d'éviter les rayures pendant l'utilisation.

Dopo aver fissato le viti, ci saranno alcune parti delle viti esposte sul componente. Si prega di utilizzare le coperture protettive in plastica fornite per proteggere le parti esposte delle viti, per evitare graffi durante l'uso.

Después de fijar los tornillos, habrá algunas partes expuestas de los tornillos en el componente. Por favor, utilice las cubiertas protectoras de plástico proporcionadas para proteger las partes expuestas de los tornillos y evitar rasguños durante el uso.

To improve the wind resistance, please be sure to complete this installation step. If expansion bolts or ground stakes are not installed, strong winds may cause the tool shed to collapse. Expansion bolts are crucial for the stability on concrete surfaces, and ground stakes are used for grassy areas. The accessory package includes the ground stake components, but the expansion bolts are not included.

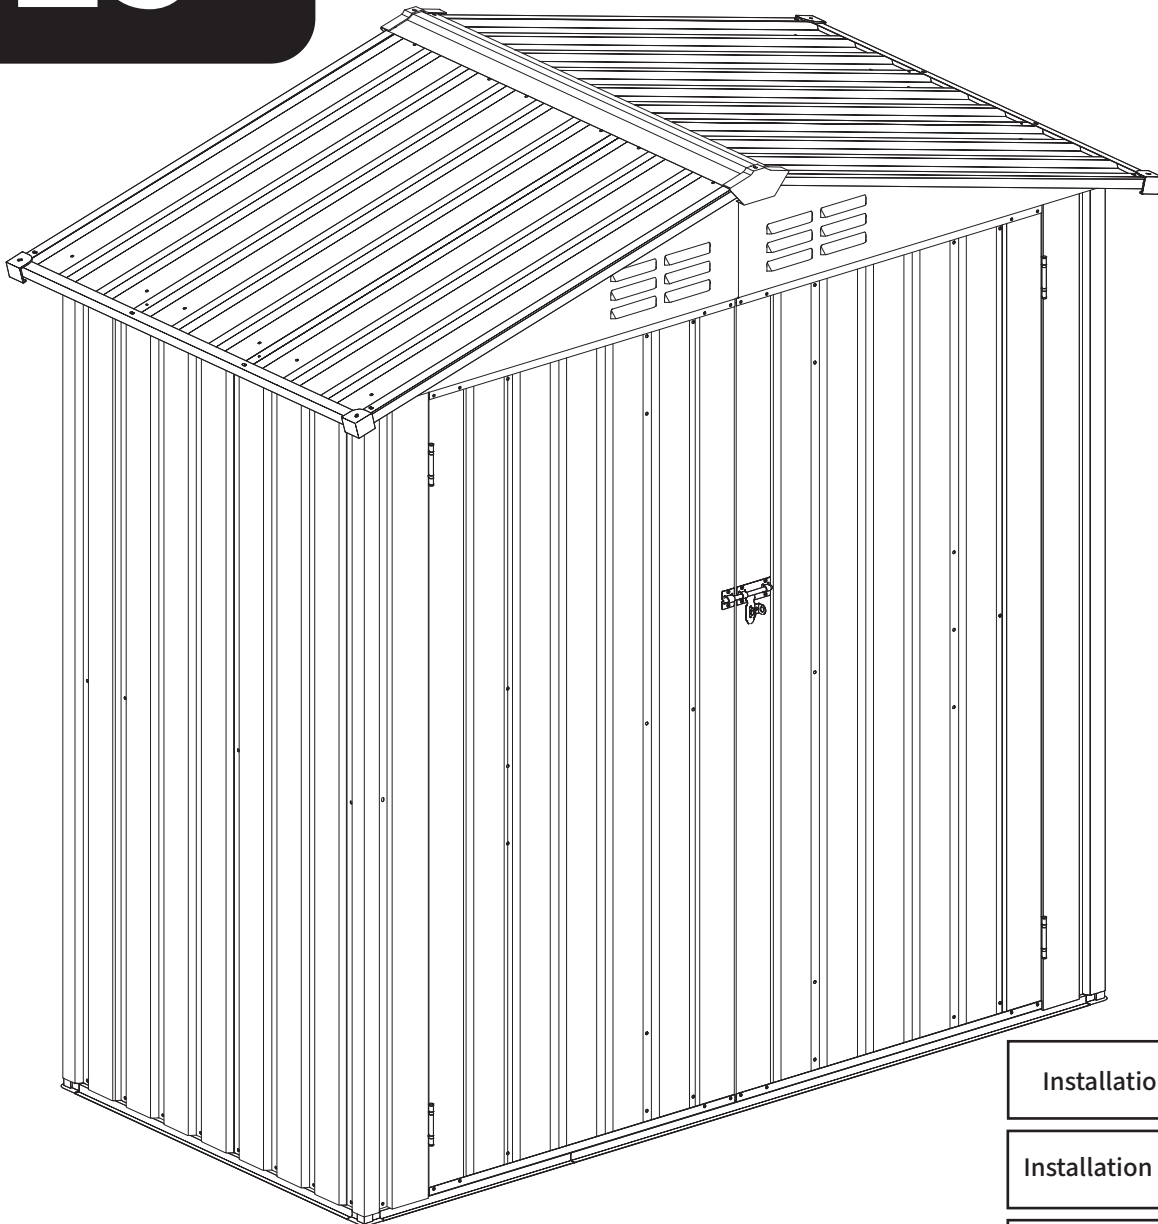

Um die Windbeständigkeit zu verbessern, stellen Sie bitte sicher, dass Sie diesen Installationsschritt abschließen. Wenn Expansionsbolzen oder Bodenanker nicht installiert sind, können starke Winde den Geräteschuppen zum Einsturz bringen. Expansionsbolzen sind entscheidend für die Stabilität auf Betonflächen, und Bodenanker werden für grasbewachsene Bereiche verwendet. Das Zubehörpaket enthält die Bodenankerkomponenten, aber die Expansionsbolzen sind nicht enthalten.

Pour améliorer la résistance au vent, assurez-vous de compléter cette étape d'installation. Si les boulons d'expansion ou les piquets de sol ne sont pas installés, des vents forts peuvent provoquer l'effondrement de l'abri de jardin. Les boulons d'expansion sont cruciaux pour la stabilité sur les surfaces en béton, et les piquets de sol sont utilisés pour les zones herbeuses. Le paquet d'accessoires comprend les composants des piquets de sol, mais les boulons d'expansion ne sont pas inclus.

Per migliorare la resistenza al vento, assicurarsi di completare questo passaggio di installazione. Se i bulloni di espansione o i picchetti non sono installati, i venti forti possono causare il crollo del capanno degli attrezzi. I bulloni di espansione sono cruciali per la stabilità su superfici in cemento, e i picchetti sono usati per le aree erbose. Il pacchetto accessori include i componenti dei picchetti, ma i bulloni di espansione non sono inclusi.

Para mejorar la resistencia al viento, asegúrese de completar este paso de instalación. Si no se instalan los pernos de expansión o las estacas de tierra, los vientos fuertes pueden causar el colapso del cobertizo de herramientas. Los pernos de expansión son cruciales para la estabilidad en superficies de concreto, y las estacas de tierra se utilizan para áreas con césped. El paquete de accesorios incluye los componentes de las estacas de tierra, pero no se incluyen los pernos de expansión.
