**Collection Features:** Taking the next step in creating a Hill Country family of collections, Hooker Furniture has introduced LaGrange. The anthology of bedroom, living room, dining room, occasional and home office furniture is inspired by the Hill Country region of Texas, including the town of LaGrange, one of the stops made by the Hooker Furniture design team in search of inspiration. The collection includes heavily distressed oak and hickory surfaces, extensive carving and scroll work, aged metals, sedimentary stone and primitive textiles. Each piece has a unique story to tell, while still retaining the authentic American character of the original collection. LaGrange is updated with a fresh new personality, brought to life by four distinctive finishes and modern conveniences for the lifestyles of today.

**Finish Construction:** Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

**Frame Construction:** Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.

**Important Use Information:** We recommend the use of felt tabs and coasters to protect the stone surface. All stone tops, especially those around water should be sealed or polished before use and on a regular basis to keep the porous stone from absorbing any stains from water, soap, wine, colas, etc. Wipe up spills immediately, since any liquids allowed to seep in may not be able to be removed and may etch the surface, causing discoloration. Most home improvement stores have a wide range of products for these applications due to the sale of stone counter tops.
